Qualifying in GRE® does not guarantee either an admission to a post-graduate program or a scholarship/assistantship. Admitting institutions may conduct further tests or interviews for final selection.

In the GATE 2008, the qualifying marks for a general category candidate in each paper is  $p + \alpha$  or 25 marks (out of 100), whichever is greater, where  $p$  is the mean and  $\alpha$  is the standard deviation of marks of all the candidates who appeared in the paper. The qualifying marks for SC/ST/PwD candidates are 90% and two-third of a general category candidate in the paper respectively.

$$\text{GATE Score} = S_n + (A_1 - S_n) \frac{(M - M_n)}{(M_1 - M_n)}$$

<sup>27</sup> In many cases of *litte*, observed by the candidate in the paper.

$M_2$  is the qualifying marks for general category candidate in this paper.

$H_2$  is the mean of marks of top 5.1% or top 10 (whichever is greater) of the candidates who appeared in the paper (in case of multi-session papers including all sessions).

 $\delta_{\text{H}} = 3.74$ , in the water assigned to  $\text{NH}$ .

1991, in the same manner as *B.*

of Engineering and Mechanical Engineering papers, the normalized rank of  $J^{\text{th}}$  candidate in the  $i^{\text{th}}$  session  $\Theta_{ij}$  was

$$\bar{M}_{11} = \frac{M_1^* - M_1^0}{M_1^* - M_1^0} [M_{11}^* - M_{11}^0] + M_{11}^0$$

 $M_{\text{eff}}$  is the actual matrix obtained by the  $j^{\text{th}}$  candidate in  $i^{\text{th}}$  session.<sup>a</sup> The average results of the top 0.1% of the countries considering all variables.

<sup>25</sup> For the sake of space and simplified discussion, the conditions in the paper

$\bar{M}_{99}$  is the average marks of the top 0.1% of the candidates in the  $i^{\text{th}}$  session.

 $\Delta f_{\text{rms}}$  is the rms of the mean spectra and standard deviation of the  $i^{\text{th}}$  channel.

The GATE 2019 score is calculated using the formula

$$GATE\ Score = S_q + (S_c - S_q) \frac{(M - M_q)}{(M_c - M_q)}$$

where

$M$  is the marks obtained by the candidate in the paper, mentioned on this GATE 2019 scorecard

$M_q$  is the qualifying marks for general category candidate in the paper

$M_c$  is the mean of marks of top 0.1% or top 10 (whichever is larger) of the candidates who appeared in the paper (in case of multi-session papers including all sessions)

$S_q = 350$ , is the score assigned to  $M_q$

$S_c = 900$ , is the score assigned to  $M_c$

In the GATE 2019 score formula,  $M_q$  is 25 marks (out of 100) or  $\mu + \sigma$ , whichever is greater. Here  $\mu$  is the mean and  $\sigma$  is the standard deviation of marks of all the candidates who appeared in the paper

Qualifying in GATE 2019 does not guarantee either an admission to a post-graduate program or a scholarship/assistantship. Admitting institutes may conduct further tests and interviews for final selection

## Overall Score: 63

The Overall Score for the PTE Academic is based on the test taker's performance on all items in the test. The scores for Communicative Skills and Enabling Skills are based on the test taker's performance on only those items that pertain to these skills specifically. As many items contribute to more than one Communicative or Enabling Skill, the Overall Score cannot be computed directly from the Communicative Skill scores or from the Enabling Skill scores. The graph below indicates this test taker's Communicative Skills and Enabling Skills relative to his or her Overall Score.

When comparing the Overall Score and the scores for Communicative Skills and Enabling Skills, please be aware that there is some imprecision in all measurement, depending on a variety of factors. For more information on interpreting PTE Academic scores, please refer to interpreting the PTE Academic Score Report which is available at [www.pearsonpte.com/ptecademicscores](http://www.pearsonpte.com/ptecademicscores).

Chairman, GATE 2018  
(on behalf of NCB - GATE, for MHRD)

The GATE 2018 score is calculated using the formula

$$\text{GATE Score} = S_x + (S_y - S_x) \frac{(M - M_y)}{(M_x - M_y)}$$

where,  
M is the marks obtained by the candidate in the paper, mentioned on this GATE 2018 scorecard  
M<sub>y</sub> is the qualifying marks for general category candidate in the paper  
M<sub>x</sub> is the mean of marks of top 0.1% or top 10 (whichever is larger) of the candidates who appeared in the paper (in case of multi-session papers including all sessions)  
S<sub>y</sub> = 350, is the score assigned to M<sub>y</sub>  
S<sub>x</sub> = 950, is the score assigned to M<sub>x</sub>

In the GATE 2018 score formula, M<sub>x</sub> is 25 marks (out of 100) or μ + σ, whichever is greater. Here μ is the mean and σ is the standard deviation of marks of all the candidates who appeared in the paper.

Qualifying in GATE 2018 does not guarantee either an admission to a post-graduate program or a scholarship/studentship. Admitting institutes may conduct further tests and interviews for final selection.

Reading Skills

Level

Your Performance

Reading

High

Test takers who receive a score at the **HIGH** level, as you did, typically understand academic texts in English that require a wide range of reading abilities regardless of the difficulty of the texts

Test takers who score at the **HIGH** level, typically

- have a very good command of academic vocabulary and grammatical structure;
- can understand and connect information, make appropriate inferences, and synthesize ideas, even when the text is conceptually dense and the language is complex;
- can recognize the expository organization of a text and the role that specific information serves within the larger text, even when the text is conceptually dense; and
- can abstract major ideas from a text, even when the text is conceptually dense and contains complex language.

Listening Skills

Level

Your Performance

Listening

High

Test takers who receive a score at the **HIGH** level, as you did, typically understand conversations and lectures in English that present a wide range of listening demands. These demands can include difficult vocabulary (uncommon terms, or colloquial or figurative language), complex grammatical structures, abstract or complex ideas, and/or making sense of unexpected or seemingly contradictory information.

When listening to lectures and conversations like these, test takers at the **HIGH** level typically can

- understand main ideas and important details, whether they are stated or implied;
- distinguish more important ideas from less important ones;
- understand how information is being used (for example, to provide evidence for a claim or describe a step in a complex process);
- recognize how pieces of information are connected (for example, in a cause-and-effect relationship);
- understand many different ways that speakers use language for purposes other than to give information (for example, to emphasize a point, express agreement or disagreement, or convey intentions indirectly); and
- synthesize information, even when it is not presented in sequence, and make correct inferences on the basis of that information.

Speaking Skills	Level*	Your Performance
Speaking about Familiar Topics	Fair	Your responses indicate you are able to speak in English about your personal experiences and opinions in a mostly clear and coherent manner. Your speech is mostly clear with only occasional errors. Grammar and vocabulary are somewhat limited and include some errors. At times, the limitations prevent you from elaborating fully on your ideas, but they do not seriously interfere with overall communication.
Speaking about Campus Situation	Fair	Your responses demonstrate an ability to speak in English about reading material and experiences typically encountered by university students. You are able to convey relevant information about conversations, newspaper articles, and campus bulletins; however, some details are missing or inaccurate. Limitations of grammar, vocabulary, and pronunciation at times cause difficulty for the listener. However, they do not seriously interfere with overall communication.
Speaking about Academic Course Content	Fair	Your responses demonstrate that you are able to speak in English about academic reading and lecture material, with only minor communication problems. For the most part, your speech is clear and easy to understand. However, some problems with pronunciation and intonation may occasionally cause difficulty for the listener. Your use of grammar and vocabulary is adequate to talk about the topics, but some ideas are not fully developed or are inaccurate.

Writing Skills	Level*	Your Performance
Writing based on Reading and Listening	Good	You responded well to the task, relating the lecture to the reading. Weaknesses, if you have any, might have to do with <ul style="list-style-type: none"> <li>slight imprecision in your summary of some of the main points and/or</li> <li>use of English that is occasionally ungrammatical or unclear.</li> </ul>
Writing based on Knowledge and Experience	Fair	You expressed ideas with reasons, examples, and details, but your response indicated weaknesses such as <ul style="list-style-type: none"> <li>you may not provide enough specific support and development for your main points;</li> <li>your ideas may be difficult to follow because of how you organize your essay or because of the language you use to connect your ideas; and/or</li> <li>grammatical mistakes or vague/incorrect uses of words may make the writing difficult to understand.</li> </ul>

**THIS IS THE ONLY PERSONAL RECORD YOU WILL RECEIVE. PLEASE RETAIN FOR YOUR RECORDS.**

This score report provides four section scores and a total score. An analysis of your strengths and weaknesses in English is included. The level pertaining to each skill should not be generalized beyond the performance on this test. Skill levels and their associated descriptions are not intended for use by institutions as part of their admissions criteria and will not be shared unless you grant permission.

**Information About Scores:** The following scaled scores are reported for the TOEFL iBT test. A total score is not reported when one or more sections have not been administered. These scores have the following ranges:

\* Skill levels for speaking and writing individual skills are estimates of performance at the item level. The total writing and speaking scale scores and ranges are more accurate. Therefore it is not appropriate to combine the individual skill levels. Doing so may lead to apparent inconsistencies between the diagnostic feedback and reported writing and speaking scores.
