Department of Electrical and Electronics Engineering

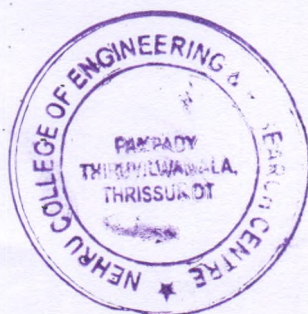

INDUSTRIAL VISIT REPORT

An Industrial Visit is a practical way of learning the internal working environment of a company. Such an opportunity gives the Students an exposure to the practical challenges that organizations face in the business world.

We the students of S6 Electrical and Electronics department as part of our curriculum got an opportunity to visit Kaynes Technology Pvt Ltd. India for an Industrial Visit. A group of 36 students and 2 faculties set out for a four days journey to Gokarna, Bellur, Mysore, and Coorg. Journey started at the night of 22 June of 2022 from the college ground.

DAY 1: GOKARNA

Reached Gokarna after a night journey at around 9:30AM to Cute Resort. Quickly freshened up and had breakfast. The bus was an equally interesting place with fun filled activities, songs to dance. The tour operators engaged us with activities during long travelling hours. We had a hearty meal from 1 hotel on the way to Gokarna. At 2pm we reached our last destination, Kudle beach. A cool breeze welcomed us to the vast blue expanse of Arabian sea. Spent the whole day walking through warm sand and playing in the sea water. Then started journey to the next destination bellur.

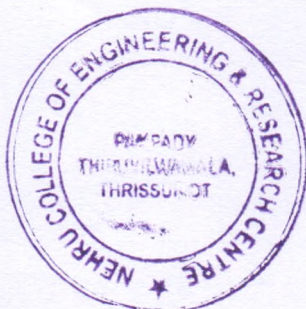

PRINCIPAL
Nehru College of
Engineering and Research Centre
Pampady, Thiruvilwamala, Thrissur Dt.
Pin - 680 597, Kerala

Planet Earth Aquarium, Gokarna

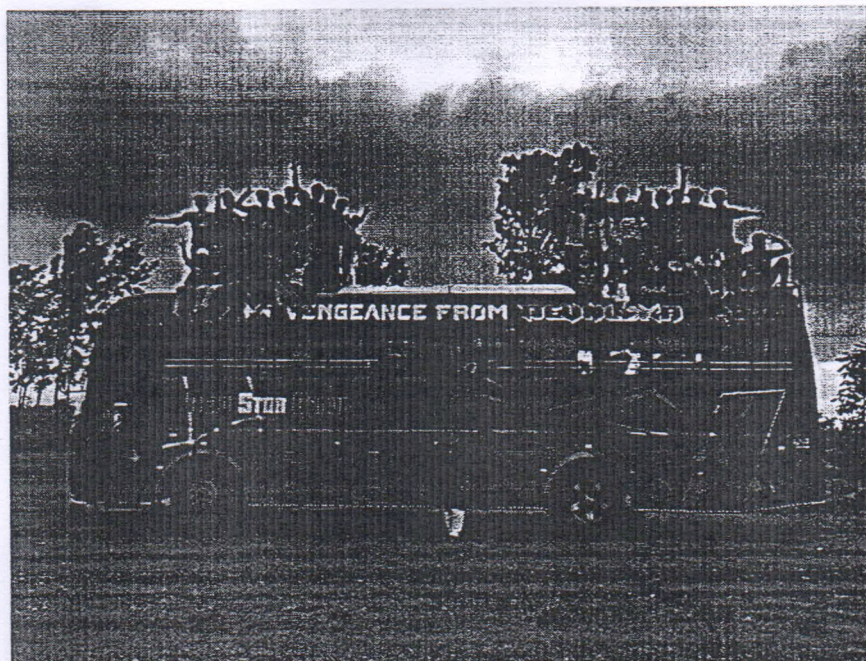

DAY 2: BELLUR

Reached Bellur after a night journey at around 8:30AM to Hotel JM Residency. Quickly freshened up and had breakfast. Then move to Bellur Dam for the river activities. All are tired because of the late night travel so everybody is taken a good sleep in the bus. Reached Bellur at 12PM, Some students not going for the activities because of their health problems. And Remaining students and staff do the activities Kayakin, Bannana Boating, Bumbber Boat. After the activities all are freshup in the Bathroom. After then having food at 3PM And goes to Hotel back

Bellur Dam

DAY 3: MYSORE

Started Journey at Morning 7 Am To Mysore for our Industrial visit. Reached our Industry Kaynes Technology Pvt Ltd. India at 11:30 AM. Completed the initial verifications from the gate and moves to the company Assembling Point. We splinted in to two groups and each group will lead by a two company production managers. The company mainly Assembled of PCB Boards For Many other Companys. They Mainlt Assembling LED Bulb Circuit Board, Inverter Board, Coolin Systeems Etc.

After a long walk we decided to move to the last place for the day, Mysore Brindavan gardens The garden was a place perfect for spending time with friends, taking photos and appreciating the architecture of brindavan.

DAY 4: COORG

Golden Temple,Coorg

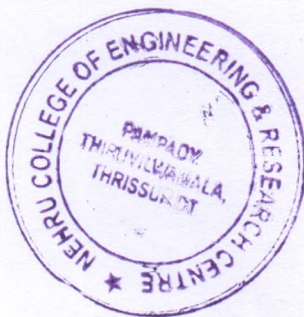

Our first visit at Coorg was to the Golden Temple, an architectural marvel with statues scale up to 8 feet in height. The calm and serene atmosphere of the Buddhist temple was peaceful the next spot was Bamboo forests, a thrilling

IB

 Nehru College of
 Engineering and Research Centre
 Pampady, Thiruvilwamala, Thrissur Dt.
 Pin - 680 597, Kerala

experience in the woods and waters made our day. At the exit of the forests were the shops selling famous Coorg chocolates, clothes, gift items. Everyone spent the remaining evening at these busy shops. After the purchasing Started Journey back to College. In the long travelling nights the tour operators ask the feedbacks to the staffs and students. All the staff and Students share their experience with others.

We reached college on 26.06.2022. The industrial visit was remarkable, ever green in our thoughts and informative.

Department of Electrical and Electronics Engineering
INDUSTRIAL VISIT REPORT

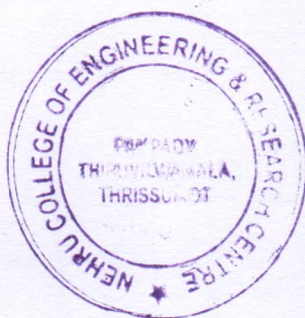

Venue: Malabar Cements Limited, Walayar , Palakaad (District)

Kerala – 678 624.

Date of Visit : April 26, 2022

As a part of Industry Institution Interaction (III), the final year students of the Department of Electrical and Electronics Engineering secured this esteemed opportunity to have an Industrial visit to a prestigious company like Malabar Cements Limited. We appreciate the efforts of the department of Electrical and Electronics Engineering for ameliorating to execute this successful Industrial visit .

The industrial visit started at 09:15 am from the college campus and reached Malabar Cements around 10:30 am

13
PRINCIPAL
Nehru College of
Engineering and Research Centre
Pampady, Thiruvilwamala, Thrissur Dt
Pin - 680 597, Kerala

Purpose

The main purpose for this visit is to familiarize with industrial environment and to get practical knowledge of different units in Malabar Cements Factory.

About Malabar Cements

It was the long cherished developmental dream of the State of Kerala established a significant leap when Malabar Cements Limited, the only Portland cement manufacturer in Kerala, was incorporated in April 1978, as a state Public Sector Unit. This Company, with a capital outlay of Rs.68 crores and a paid up equity capital of Rs. 26 crores, is fully owned by Government of Kerala. The Company is continuously running on profit.

Cement is the basic construction material of the contemporary era. During the 1970s cement was a controlled commodity and Kerala had to depend entirely on other states or foreign countries or its requirements/ supplies of this construction material. In fact, this was the stimulus behind comprehending this state owned cement manufacturing unit. The Geological Survey of India (GSI) had identified a cement grade limestone deposit in the Walayar reserve forest way back in 1961-62. Later, the Mineral Exploration Corporation Limited confirmed its efficacy. Despite its difficult terrain and perilous conditions at the deposit, the Kerala State Industrial Development Corporation (KSIDC) had engaged

PRINCIPAL
 Nehru College of
 Engineering and Research Centre
 Pampady, Thiruvilwamala, Thrissur Dt.
 Pin - 680-597, Kerala

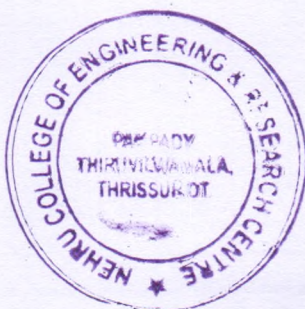

The visit was guided by the officer who guided us through this visit.

First we visited the raw material section. Staffs those who were working in the raw material section explained us the raw materials used to produce cement. The major raw materials used are limestone and laterite. The entire manufacturing process is computer controlled from the central control room and stringent quality control measures are applied at all stages of production. We paved a visit to the electrical section and the 110kV substation which operates this whole cement factory. The officer guide us to the way to Klin, where the clinker is produced, which is maintained at a temperature of about 1450 degree Celsius. We experience the temperature ourselves. They allowed us to watch how the clinker is produced inside the kiln through goggles. We found the importance of adding gypsum to the cement. Then we visit the packaging unit where the cement is packed into bags and exporting through lorries. Finally, we went to the ropeway to see how the raw materials are transporting from the mines.

MANUFACTURING IN MALABAR CEMENTS

Malabar Cements manufactures cement through the most modern dry process method based on world-renowned German technology. The major raw materials for cement manufacture are limestone and laterite, which are natural minerals obtained within the state. These raw materials provide all necessary ingredients of cement like lime, silica, alumina and iron oxide. The entire manufacturing process is computer controlled from a central control room and stringent quality control measures are applied at all stages of production. The state of the art pollution control measures like bag filters are also being installed. The process generally involves three stages of production.

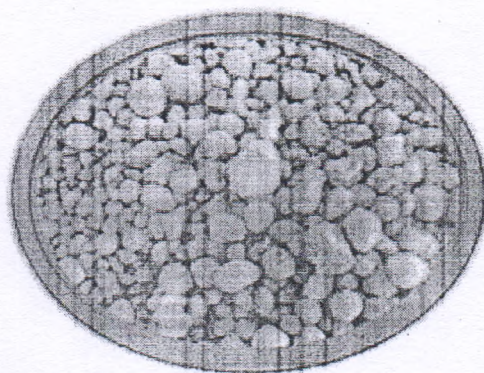

Raw Meal

12
PRINCIPAL
Nehru College of
Engineering and Research Centre
Pampady, Thiruvilwamala, Thrissur Dt.
Pin - 680 597, Kerala

The limestone obtained from captive mines is enriched with higher quality limestone procured from nearby states as and when required. The raw mix normally contains 95% limestone and 5% laterite. The raw materials are crushed to around 20-25 mm size and the proportioned raw materials are ground in a ball mill in dry condition to a very fine powder. The resultant product is called raw meal and is stored in concrete silos where it is pneumatically homogenized to get a uniform product.

Clinker

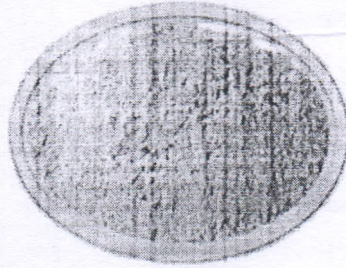

Clinker is produced in a rotary kiln, which is a cylindrical steel shell of 65m length and diameter 4.2m, lined with refractory bricks. The kiln is inclined at 3% and set rotating at a speed of 2 to 2.2 rpm. It is provided with a 4-stage multi cyclone pre-heater system through which the homogenized raw meal is fed to the kiln inlet by means of belt bucket elevators. The Kiln is fired with pulverized coal and maintained at a temperature of about 1450°C. In the pre-heater and kiln, the raw meal undergoes a series of physical as well as chemical changes giving rise to the cement minerals. The resultant product in nodular form obtained from the kiln is called clinker. Clinker is immediately quenched in the clinker cooler to stabilize its properties and stored in the clinker stockpile.

13
PRINCIPAL
 Nehru College of
 Engineering and Research Centre
 Pampady, Thiruvilwamala, Thrissur Dt.
 Pin - 680 597, Kerala

Cement

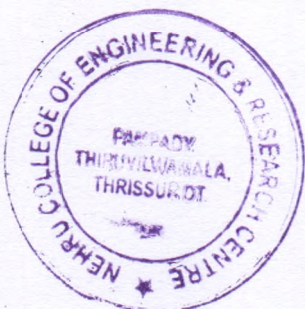

Cement is produced by grinding clinker with 3 to 5% gypsum in a closed circuit ball mill to required fineness. Gypsum is added to control the setting properties of cement. Grinding clinker and gypsum produces ordinary Portland cement (OPC). Fly ash / Slag at required proportion is ground along with clinker and gypsum to produce Portland Pozzolana cement (PPC) / Portland slag cement (PSC). The ground cement is stored in concrete silos and packed in 50kg bags using electronic packing machines.

Impacts of Industrial Visit

This industrial visit helped in getting insights into various subjects learned by us in the course of Electrical and Electronics Engineering.

Practical implementation of engineering concepts and technology were visualized by us.

This industrial visit helped us in gaining Practical knowledge in Industrial Instrumentation and Automation – PLC and SCADA, automation, manufacturing technology, production planning, maintenance, distribution, power generation and distribution, power system, power electronics and drives, relays and controls, electrical machines, variable frequency drives and so on

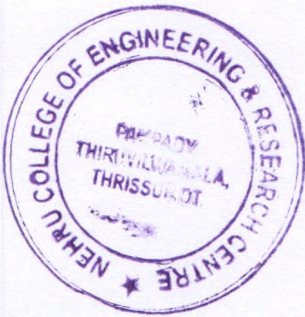

12

PRINCIPAL
Nehru College of
Engineering and Research Centre
Pampady, Thiruvilwamala, Thrissur Dt
Pin - 680 597, Kerala

Conclusion

It gave us a new perspective about our branch, Electrical and Electronics Engineering, and strengthened our concepts of Power Station Practices. The guiding staffs of both college as well as Cement Factory were very supportive to all students. We hope that this visit will help us in our future practical life and bring a positive change in our thinking and practical behaviour regarding Education and specially Engineering.

Department of Electrical and Electronics Engineering

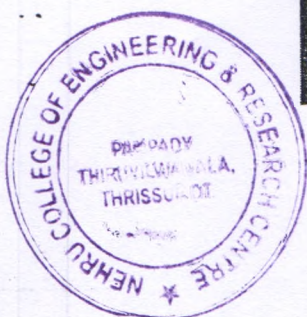

INDUSTRIAL VISIT REPORT

Venue: KSEB 400 KV Substation, Madakkathara

Date of Visit : July 13, 2022

As a part of Industry Institution Interaction (III), the third year students of the Department of Electrical and Electronics Engineering secured this esteemed opportunity to have an Industrial visit to KSEB 400 KV Substation, Madakkathara. We appreciate the efforts of the department of Electrical and Electronics Engineering for ameliorating to execute this successful Industrial visit . .

The industrial visit started at 09:15 am from the college campus and reached KSEB 400 KV Substation, Madakkathara at 11:30 AM.

B

PRINCIPAL
Nehru College of
Engineering and Research Centre
Pampady, Thiruvilwamala, Thrissur Dt.
Pin - 680 597, Kerala

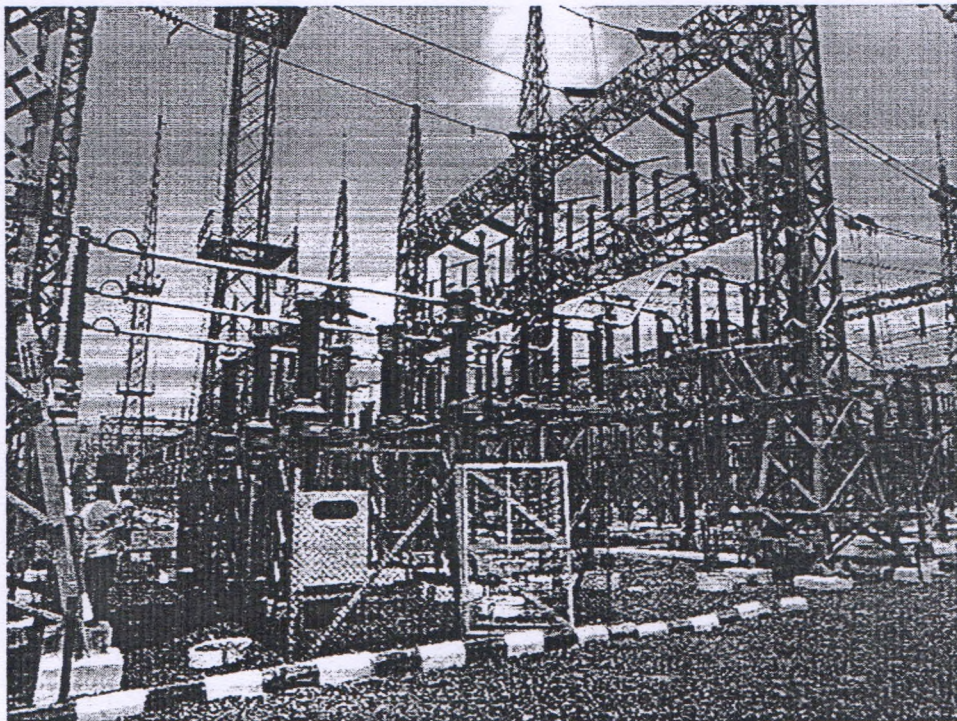

Purpose

The main purpose for this visit is to familiarize with The Transmission of Electrical Systems and Stages of Transmission in Substaion.

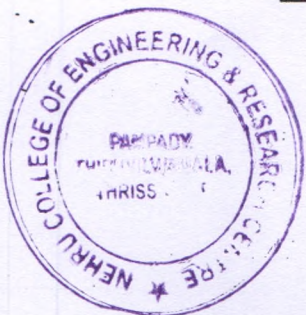

About 400 KV Substation, Madakkathara

Madakkathara Substation is the only 400kV Substation under KSEB. It is an air insulated transmission substation that deals with 400/220/110/11 kV. Two feeders of 400 kV are from from PGCL (Udumalpett, Tamilnadu). Er Gokul in the Transmission and Construction Subdivision explained in detail all the steps from the selection of land for dam to the distribution to consumers. Er Haneesh, Assistant Executive Engineer, explained in detail the layout of the whole yard, different conductors used, ratings, transformers and protection units, etc.

SF6 circuit breakers are used in the yard and the isolators used are double breaker, single breaker, circuit breaker and panthograph. Total installed capacity of the Madakathara Substation is 1565 MVA. Throughout the internship, the students also learned many things about the transmission of electricity in different regions of Kerala and the methods adopted to maintain the supply to the consumers without any failure

400 KV SUBSTATION YARD

PRINCIPAL
 Nehru College of
 Engineering and Research Centre
 Pampady, Thiruvilwamala, Thrissur Dt.
 Pin - 680 597, Kerala

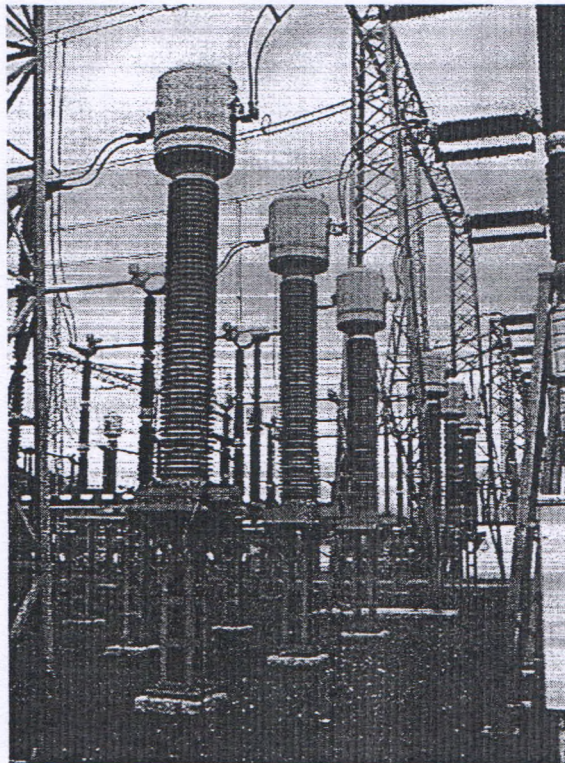

At 400 KV Substation, Madakkathara

The industrial Visit was organized with the prior permission and guidance of Dr. Shobha Manakkal, Head of the department. It was coordinated by our class advisor Mr. Rajesh P, Mr. Sundaramoorthi. P. Around 14 students of the Third year visited 400 KV Substation, Madakkathara on 13th of July, 2022.

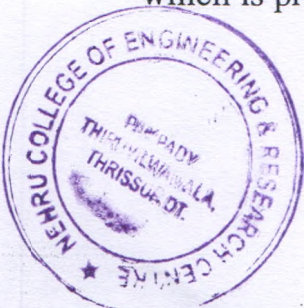

The industrial visit at Substation, started with a security rules briefing. Mrs. Sabitha, Sub Engineer, Maintenance Section assisted and guided the visit inside the Substation.

First we visited the Yard of incoming feeder from the Power Grid Corporation of India Limited 400 KV. Mam Explains the Connection with the Current Transformer, Circuit Breaker, Isolator, This Connection is Simply Called Bay. So there are 3 bays in there Because it is an Three Phase Network.

Current Transformer

A **current transformer (CT)** is a type of transformer that is used to reduce or multiply an alternating current (AC). It produces a current in its secondary which is proportional to the current in its primary.

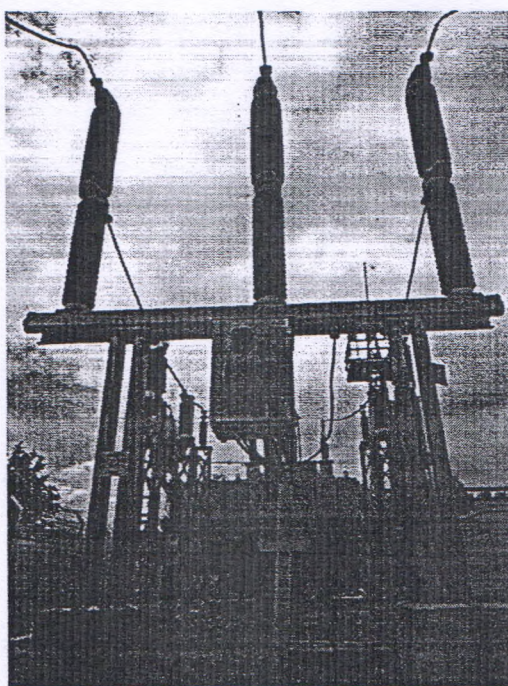

PRINCIPAL
 Nehru College of
 Engineering and Research Centre
 Pampady, Thiruvilwamala, Thrissur Dt.
 Pin - 680 597, Kerala

Current transformers, along with voltage or potential transformers, are instrument transformers. Instrument transformers scale the large values of voltage or current to small, standardized values that are easy to handle for measuring instruments and protective relays. The instrument transformers isolate measurement or protection circuits from the high voltage of the primary system. A current transformer provides a secondary current that is accurately proportional to the current flowing in its primary. The current transformer presents a negligible load to the primary circuit.

Current transformers are the current-sensing units of the power system and are used at generating stations, electrical substations, and in industrial and commercial electric power distribution.

Circuit Breaker

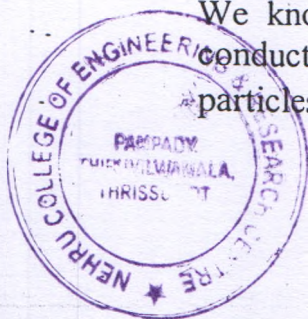

SF_6 gas has excellent insulating property and it has a high electronegativity. Due to high electronegativity, it has a high affinity for absorbing free electrons. It absorbs electrons to form a negative ions. The attachment of electron with SF_6 molecules may occur in two different reactions as shown below,

Ions are obviously much heavier than a free electron and therefore over all mobility of charged particles in SF_6 gas is much less as compared to the other common gases.

We know that the mobility of charged particles is majorly responsible for conducting current through a gas. Hence, for heavier and less mobile charged particles in SF_6 gas, it acquires very high dielectric strength. Due to its low

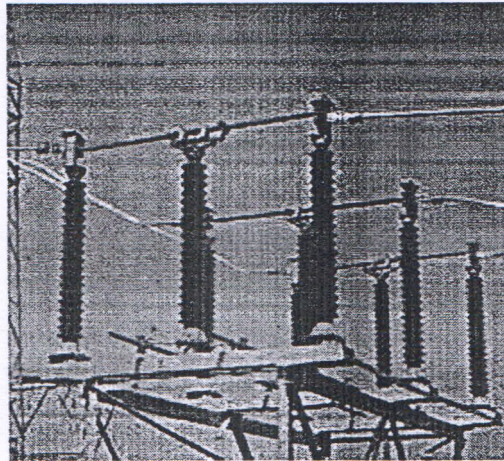

13
PRINCIPAL
Nehru College of
Engineering and Research Centre
Pampady, Thiruvananthapuram, Thirissur Dt.
Pin - 680 597, Kerala

gaseous viscosity, SF₆ gas can efficiently transfer heat by convection. So due to high dielectric strength and high cooling effect, SF₆ gas is approximately 100 times more effective arc quenching media than air.

Due to these unique properties of this gas, SF₆ circuit breaker is used in a complete range of medium voltage and high voltage electrical power system. These circuit breakers are available for the voltage ranges from 33KV to 800 KV and even more.

Isolator

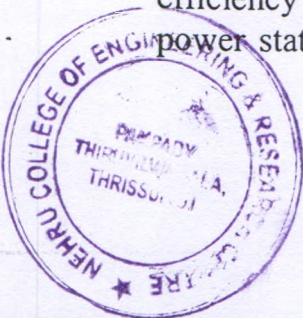

An electrical isolator which is commonly known as an isolator or disconnecter is a piece of equipment that is used in electric devices and power systems with the main function of effectively isolating two different parts of an instrument. By definition, isolation is the process of complete separation of various parts of an apparatus and this separation can either be physical or electrical, or both.

As already discussed the main purpose of an isolator is safety because if a fault occurs in one section of a circuit or power supply then an electrical isolator is used as a switch to keep apart that section from other sections of the system to perform repair work. In a similar scenario, isolators also ensure the safety of workers in regular maintenance and service of the power system. Isolators separate a certain circuit from the electricity mains and discharge any residual current, left in the circuit, to the ground.

Impacts of Industrial Visit

In today's world of power shortages, increasing demand and the energy efficiency debate, how the electricity network is run right through from the power station to switch on the wall is becoming ever more important. Power

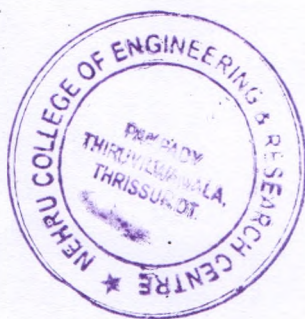

PRINCIPAL
 Nehru College of
 Engineering and Research Centre
 Pampady, Thiruvilwamala, Thrissur Dt.
 Pin - 680 597, Kerala

companies are now realising that the substation. We Get an Idea of Power Transmission and the Equipments used in The substations to Transfer and controlling the power. Now all the substations are majorly working of automatically. so in order to control ,the PLC and SCADA are used for automation

Conclusion

It gave us a new perspective about our branch, Electrical and Electronics Engineering, and strengthened our concepts of Power Station Practices. The guiding staffs of both college as well as Sub Engineer were very supportive to all students. We hope that this visit will help us in our future practical life and bring a positive change in our thinking and practical behaviour regarding Education and specially Engineering.

FOUR DAY IV REPORT

The Four-day Industrial Visit was scheduled on 23rd June 2022 to 26th June 2022 with the leading industry Zephyr Technologies and Solutions Pvt. Ltd, Mangalore. And Fortune Institute of Computer Education, Udupi. 74 students from CSE department were part of the IV and we were accompanied by Mr. Vipin KM (Assistant Professor CSE dept.) and Mr. Arun K (Assistant Professor CSE dept.). Mrs. Nisha AK (Assistant Professor CSE dept.). Mrs. Ishwarya Surendran (Assistant Professor CSE dept.).

Meeting held as a part of IV

Before our IV, we coordinated two general meeting for students, which was held on 10th June 2022 and 16th June 2022 at Aryabatta seminar hall in the afternoon session. The meeting was held in the presence of all the students who were going for IV, teachers who were coming to IV, Advisors of both the class A and B, and student representatives. The meeting was organized for giving the general instructions and for clearing doubts for our industrial visit.

Day 1:

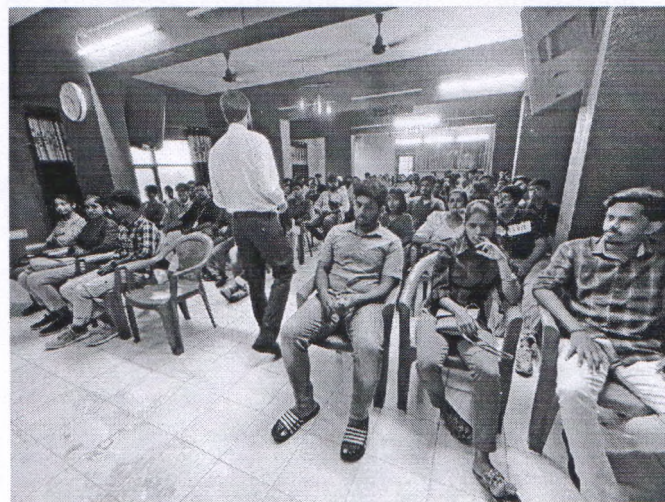

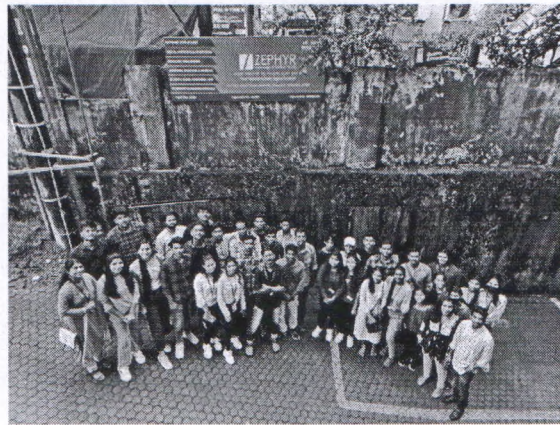

We started our journey from Nehru College of Engineering and Research Centre on 23rd June around 4 am. At 8am we had our breakfast on the way to Mangalore. We reached Mangalore around 12:30pm and had our lunch. After lunch we visited our first industry Zephyr Technologies and Solutions Pvt. Ltd, Mangalore around 1:30 pm.

Day 2:

At 8am we had our breakfast from Malpe. After breakfast we visited our second industry on the list, Fortune Institute of Computer Education, Udupi at 9 am.

FORTUNE INSTITUTE OF COMPUTER EDUCATION:

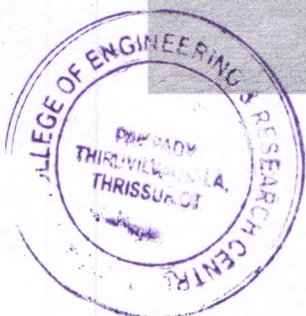

Fortune Institute of Computer Education in Udupi is one of the leading businesses in the Computer Hardware Training Institutes. Also known for Colleges, Book Shops, Tutorials, Computer Training Institutes, Institutes, Online Passport Agents, and Language Classes for English, Abacus Classes and much more. Established in the year 2010, Fortune Institute of Computer Education in KM Marg. This well-known establishment acts as a one-stop destination servicing customers both local and from other parts of Udupi. Over the course of its journey, this business has established a firm foothold in its industry. The belief that customer satisfaction is as important as their products and services have helped this establishment garner a vast base of customers, which continues to grow by the day. This business employs individuals that are dedicated towards their respective roles and put in a lot of effort to achieve the common vision and larger goals of the company. In the near future, this business aims to expand its line of products and services and cater to a larger client base.

Day 3: GOKARNA

Gokarna is a small temple town located in Uttara Kannada district of Karnataka state in India; it has a population of around 20,000. The main temple and deity is Shiva, who is also known as Mahabaleshwara. This temple houses what is believed to be original image of Shiva's linga (Atmalinga).

We checked out from Dewdrops resort Dandeli at 7 am and proceeded to Gokarna. On the way we had our breakfast at around 9 am. We reached Hubbangeri, Gokarna and checked in at Silver Sand Beach Resort at around 12pm. At 12.30pm we went to visit Kudle Beach and OM beach and had our lunch at 2 pm. After that we went to visit Murudeswar Temple. We had our dinner at 8pm and stayed at the same hotel.

Day 4: UDUPI

Udupi, which previously had a Town Municipal Council now, has a City Municipal Council which came into existence in 1995. Areas around Udupi, such as Manipal, Malpe and Santhekatte were merged to form the City Municipal Council.

We started for Udupi on 26th June by checking out from Gokarna Resort at 7am and had our breakfast on the way. We reached Udupi around 11.30am and visited Ancherychira Lake, Sreekrishna temple and kudlu falls view. In between we had our lunch at 1pm.

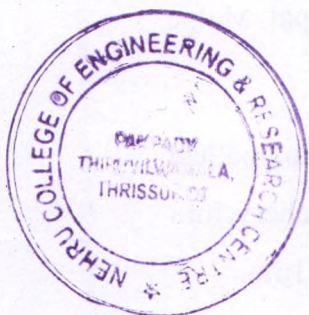

At 3pm we proceeded back to our college. We had our dinner at 8pm on the way and Reached College at 10pm.

CERTIFICATE

OF ACHIEVEMENT

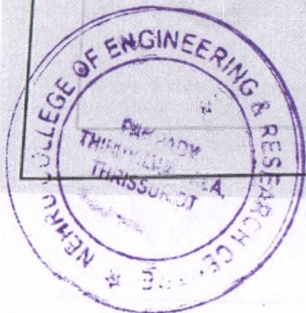

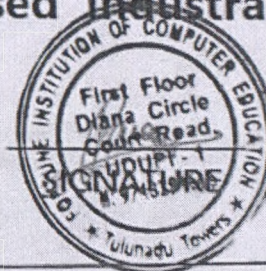

THIS CERTIFICATE IS PROUDLY PRESENTED TO

✦ ZEB A KADHEEJA Z ✦

This is to Certify that Ms. ZEB A KADHEEJA Z , 6th sem BTech
Computer Science Student of Nehru College of Engineering
and Research Centre, Pampady did her Campus visit
at Fortune institute of Computer Education from 23rd June, 2022
as a part of their Curriculum - based Industrail visit.

S4 FINAL PROJECT KEY DATES AND MILESTONES

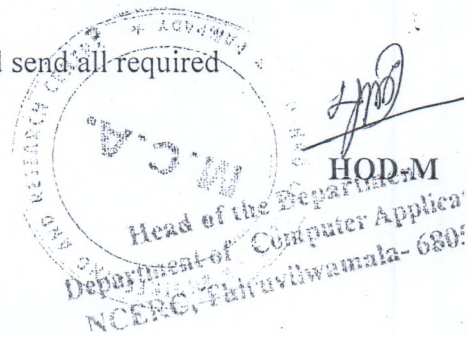

2020-22

Week	Schedule	Date
	Initial Discussions on Project Methodology.	2022 March 30 <i>Whole Class session</i>
I	Selection of Topic, Feasibility analysis.	Apr 06
II	Topic Approval, Meeting of student and Scrum Master with Product Owner. Informal, preliminary discussions of requirements. Creating user stories in the rough record. Commencement of the Project.	Apr 18 <i>Meet your guide in-person.</i>
III	Identifying modules, Initial Design of Database & UI. Starting Test Driven Development. Creating an empty git repository by Scrum Master / Student. Pushing the first version of the Project along with a Readme file containing contact details of team members. Using Branch for individual members. Merging with Master.	Apr 25
IV	First Scrum Review. (Here onwards, the Scrum reviews are conducted on every other week)	May 2 <i>Meet your guide in-person.</i>
VII	Project Presentation - Interim Evaluation to be based on Git History	May 21 <i>Whole Class session</i>
XII	Project Presentation - Final Evaluation to be based on Git History	June 30 <i>Whole Class session</i>
XIII	Submission of Project Report, with Rough Record	July 06
	Project Report Submission in KTU Portal	July 10
	PDF file Uploading	<i>Awaiting KTU dates (around July 10)</i>
	Viva expected date	<i>Awaiting KTU dates (around July 22)</i>

Note: All students should stay linked with their Faculty Guides/Scrum masters, and send all required communications/documents connected with the project when and where necessary.

POSTER DESIGN COMPETITION

Date: 04-02-22

WORLD CANCER DAY is an international day marked on 4 February to raise awareness of cancer and to encourage its prevention, detection and treatment. World cancer day is led by the union for international cancer control to support the goals of the world declaration, written in 2008.

The NSS unit 209 of Nehru College of Engineering and Research Centre, Pampady Organized a POSTER DESIGN COMPETITION, in relation to the WORLD CANCER DAY for the awareness on cancer. The main objective of the competition was to draw attention of the young generation to cancer and how important it was to detect the disease early.

PRINCIPAL
Nehru College of Engineering and Research Centre
Pampady, Thiruvilwamala, Thrissur Dt.
Pin - 680 597, Kerala

About 145 students from various collages and schools participated in this competition. Some of the posters are added above; finally the competition came to an end on 11 am of 8th February. Prizes were awarded to

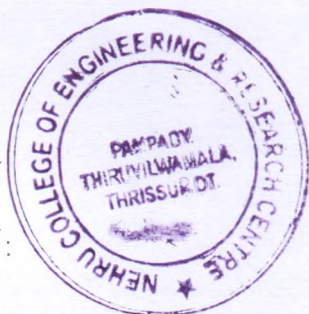

First- Amal C.S of Narayana English Medium School, Pazhyannur;

Second- Harikrishnan K of NCERC, Pambady.

and

Third- Aswin M S of Alameen engineering collage, Idukki.

The program was a huge success creating awareness among young generation about cancer.

World Cancer Day: a leading international awareness day. World Cancer Day held every 4 February is the global uniting initiative led by the Union for International Cancer Control (UICC). Multiple initiatives are run on World Cancer Day to show support for those affected by cancer.

The NSS unit 209 of Nehru College of Engineering and Research centre (NCERC) organized a ORIENTATION SESSION on PREVENTION OF CANCER in relation to the WORLD CANCER DAY. The main objective of the program was to create a genuine progress in minimizing the ecumenical impact of cancer by providing knowledge and thereby reducing the impact caused by cancer.

Orientation session conducted on 12th february, 2022. The orientation began at 3 pm with Manavageetham. NSS volunteer delivered Anusree the welcome speech. The orientation session was handled by Dr. Lovely S Livingston, Assistant Professor Department of Community Medicine, PK Das Institute of Medical Sciences, Palakkad. The session was pretty good and interesting. The NSS Program officer Prof. Rejumon Sir facilitated the program. Mr. Ambikadas Sir Academic superintendent of NCERC made the program remarkable with his presence. NSS volunteer Deepak delivered the vote of thanks. Finally the session ended around 4 pm.

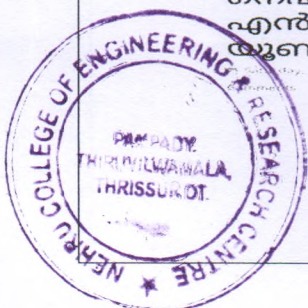

GARDEN SETTING IN GVHSS THIRUVILWAMALA

Date: 13-02-22

NSS Unit 209 of Nehru College Of Engineering And Research Centre has conducted a one day Gardening program in GVHSS Thiruvilwamala. We reached in the school at 10am. Under NSS Program officer Reju mon sir we NSS UNIT 209 members started the work. We started the work by cleaning the allotted area for gardening. After cleaning the school staff provided refreshment drink. Then we continued our work. We planted different types of plants and makes the garden beautiful. We completed the work by watering plants.

"QUIZZARD"

QUIZ COMPETITION

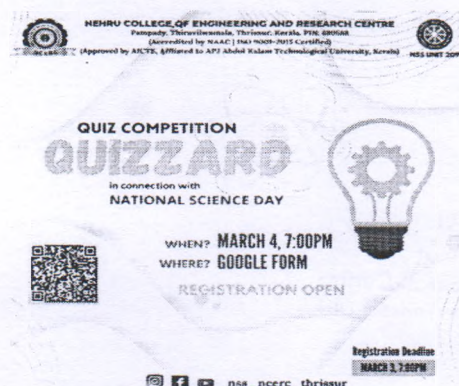

Date: 04-03-22

The NSS unit 209 of Nehru College Engineering and Research Centre has organised a quiz competition named **"QUIZZARD"** in connection with National Science Day on 04/03/22.

The registration of the quiz was started on Science day, February 28. Three days has given to register the quiz and registration closed on March 3 at 7.00 PM.

Almost 50 students among various colleges has been registered in the event. And the proper guidance of the event has been passed via whatsapp group.

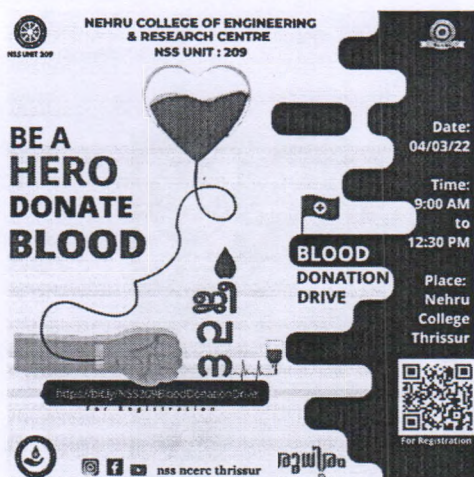

The quiz was started at 7.00 pm on March 4. Questions was given in the google form platform and shared in the respective whatsapp group. It consisted of 20 questions and 15 minutes has given to complete the quiz. Questions was in objective type and it ended at 7.15 pm. Among the various entries received from the participants winners were choosed by the marks they got and the time they have submitted.

"JEEVANA"

BLOOD DONATION CAMP

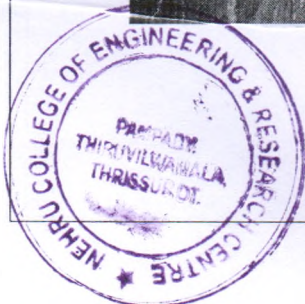

Date: 04-03-22

#Jeevana "blood donation camp report ..

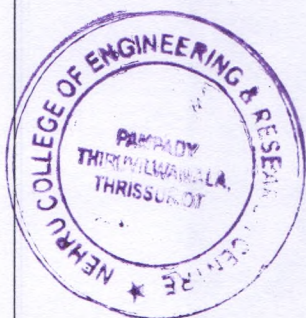

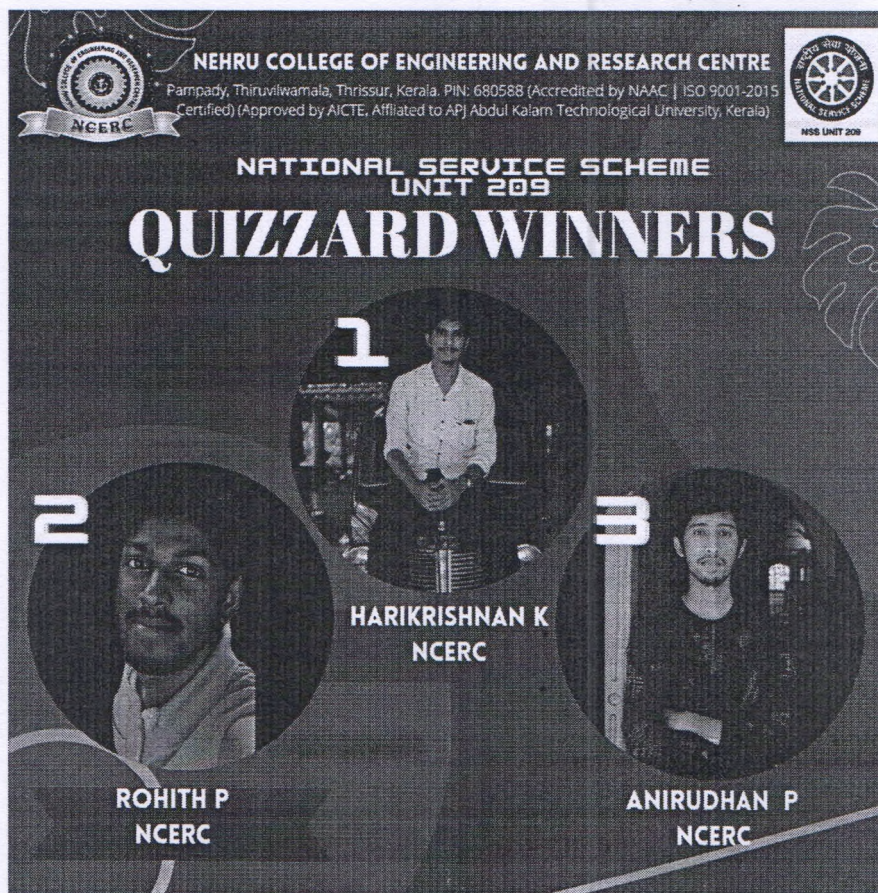

The nss unit 209 organized "jeevana"an life blood donation camp on friday 4-3-2022 with the revelation that donating one's own blood is the greatest deed one can do while alive. Blood donation camp inauguration ceremony begins with the ManavaGeetha at the college Bramaguptha auditorium.

College Campus manager mrs. Bindu Krishnakumar inaugurated the function. Dr. Indu (Medical officer Dist. Hospital), ASI manoj(Red cross member), Vanarajan(Red cross Dist. Secretary)presided the function. Senior volunteer Mufeedha.Sireen delivered the welcome speech.

Finally the first three positions were identified. From that first position was given to Harikrishnan. K(NCERC) and second position to Rohith. P(NCERC) and third position given to Anirudhan. P(NCERC).

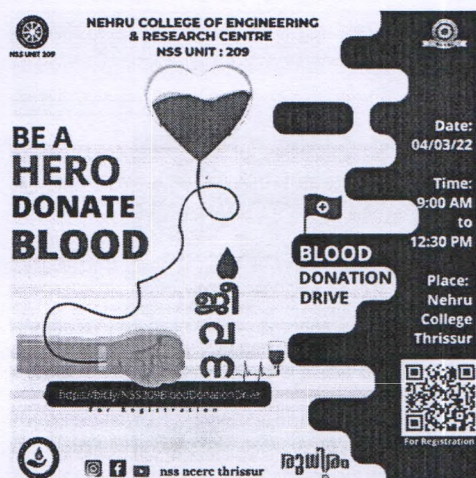

The event has been successfully conducted by the team 'Dashavatharam' with the help of programme officer Mr.Rejumon.

CAMPUS CLEANING

Date: 05-03-22

NSS Unit 209 of Nehru College of Engineering And Research Center was organized a "CAMPUS CLEANING" on the 5th of march 2022. All the volunteers were gathered in front of the main block Baskara at 9:00 am. We have sung our "MANAVAGEETHAM". And then the Volunteers were divided into five groups. They were assigned different areas of college.

Group 1 was assigned in front of Aryabatta block for cleaning. Group 2 was assigned at Baskara block and 3rd group was assigned at Bramagupta Auditorium and 4th group was at Nila (canteen) and the last and final group 5 was at Kapila block.

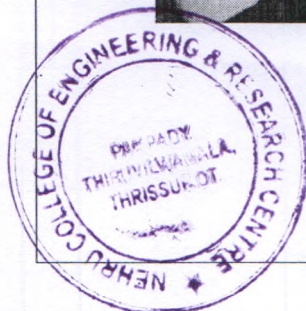

They were started the cleaning by wearing gloves and masks properly. They were collected the organic and plastic waste and also the waste they got after "BLOOD

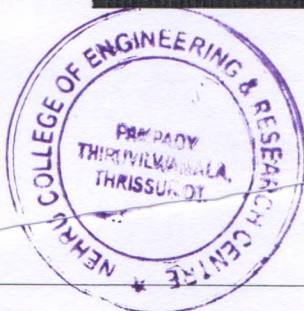

DONATION CAMP" conducted on 4th march 2022. All the volunteers of NSS Unit 209 were participated actively and selflessly.

In the afternoon session each and every waste collected by the 5 groups was separated into organic and plastic waste. The waste was handed over to the "THIRUVILWAMALA GRAMA PANCHAYATH". We get the appreciation from our principle mam Mrs. Ambikadevi Amma for cleaning the campus with neat and colorful. Along with the support of our program officer Mr. Rejumon sir. At last we all dispersed at 4:00 pm.

Nehru College of Engineering and Research Centre's, Women's Forum & ICC in association with NSS unit 209; celebrated the International Women's Day 2022 to respect the Women Fraternity. The NSS Unit 209 volunteers and ICC combined and conducted the program with the title of "GENDER EQUALITY TODAY FOR SUSTAINABLE TOMMORROW ". The chief guest Adv.pm Jaya mam inaugurated the program. The

Program was started at 10:15 am. Then the professor of EEE Department smt. Rajeena Mol P.T delivered the welcome speech.

Principle of Nehru Collage of Engineering and research centre Dr. P Ambika Devi Amma delivered the presidential address. Campus manager Smt. Bindu Krishna Kumar felicitated the program. The program was conducted with the vote of thanks of ICC Coordinator Smt. Radhika. At the time of 12:45 pm we wind up our speech and ready for our rally. The thought of the rally was "#BRAEK THE BIAS".

According to the program of Women's Day was organized under the unit NSS 209 of Nehru Collage of Engineering and research centre. The NSS UNIT 209 volunteers conducted the rally with the students of NCERC pampady. At the time of 2:00 pm rally ends. And we dispersed the program.

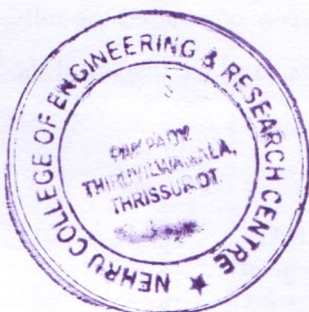

BIRDS NEED YOU THIS SUMMER

Date: 18-03-22

Summers every year are becoming harsher and unbearably hot. Since most water bodies have either vanished or dried up, birds are left with little choice. Neighbourhood birds are dependent on us and it doesn't take much effort to provide them some water.

NSS 209 of Nehru College of Engineering And Research Centre has started a program "Bird's Needs You This Summer". The program started on 14th of March with an aim to help birds to survive in this hot summer. The programme was a huge success about 150+ students from different colleges participated in this programme. Just try and look around! From simple steps to intended caring actions, you can make the difference.

ORIENTATION- AWARENESS ON CONSERVATION OF WATER

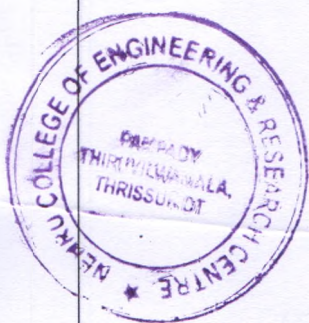

Date: 25-03-22

NSS UNIT 209 of Nehru College of Engineering And Research Centre has conducted an orientation session on 25/03/2022 in connection with “world water day” on the topic “awareness on conservation of water”.

The session was handled by Mr. Anoop kumar m v, Assistant Professor of Electrical and Electronics Engineering department, NCERC.

The session was scheduled at 3:00 pm on webex plat form. Nss 209 program officer Mr. Rejumon R welcomes the host. The session was very interesting; the session covered all the necessary information for the conservation of water. Many messages were conveyed throughout the session, all the volunteers understood the need of saving water and importance of water, and we made a pledge to “save water”. All the volunteers participated well in the session. The session ended by conveying thanks to the host at 5:00 pm.

An overview of SSB

The interactive session conducted by Jawaharlal College of engineering and Nehru College of engineering and research centre “An overview of SSB” by ex-commandant and President of service selection board, Bhopal, Maj. Gen. Anil Shukla on 11th September briefed about the whole selection procedure conducted by the selection board. It was very informative and useful because many of the cadets lack the knowledge of armed forces. The basic introduction to various job opportunities in defence as an officer was explained to us by Mr. Aswin Raj from Indian Combat. This also helped us to understand the career options in defence.

Majority of our cadets participated in the online session with great enthusiasm and raised valuable questions. All the doubts and misunderstandings about SSB and armed forces got cleared during this interactive session.

It was a good experience for all cadets aspiring defence as a career.

Teacher's Day Celebrations 2021

We celebrate Teacher's day every year throughout the country on 5th September to appreciate the role played by teachers in the life of students—the leaders of tomorrow. This day is dedicated to Dr. Sarvepalli Radhakrishnan, a timeless teacher and the former President of the country. Amidst the pandemic, Teacher's day was celebrated on 5th September, 2021 virtually.

On this day, NCC Cadets of Nehru College, Pampady expressed their gratitude and appreciation by making a video of them holding posters with lovely quotes about teachers. The entire programme was applauded by everyone present and will always remain a beautiful memory in the hearts of one and all present.

Independence Day Celebrations 2021

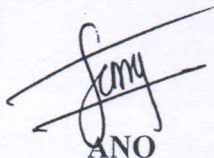

75th Independence Day was celebrated on 15 August 2021 with great happiness and enthusiasm at Nehru College of Engineering & Research Centre, Pampady, Thrissur. Although in the middle of covid pandemic, majority of cadets attended the celebration.

The National flag was hoisted by the respected principal Prof. Dr. Ambikadevi Amma T in the presence of Lt. .Sanoj.T, Associate NCC Officer, Mr. Ambikadas, Academic Superintendent, Mr. Rejumon, NSS program officer, NCC cadets, NSS volunteers, other staffs and students.

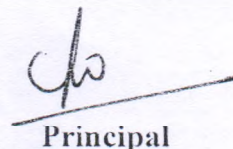

After the flag hoisting there was a short speech by one of the SD cadet on the importance of Independence Day and also a patriotic song by NCC cadets.

An Online Drawing competition on the topic “Real Heroes” and an online Patriotic song competition were conducted by the NCC cadets who were not present in the occasion.

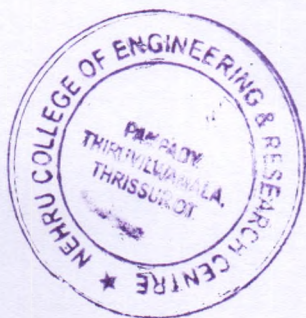

It was the day which showed the true patriotism in us by celebrating Independence Day in despite of covid-19.

DOCTOR'S DAY--- 01 JULY 2021

Doctor's day was conducted on 01 July 2021. We , NCC Cadets of Nehru College of Engineering and Research centre , conducted the day to pay tribute to the physicians and their contributions to the society.

Cadets designed posters which shows respect towards the Doctors and collected some of the important quotes that picturize their selfless efforts. They also created a video which includes some of the articles and drawings of cadets which point out the contributions of the physicians towards the world.

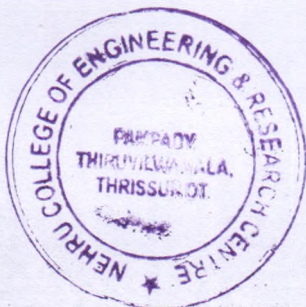

All events were conducted in presence of Lt Sanoj T, NCC ANO, NCERC, PAMPADY by respecting all the covid-19 protocols.

Since the onset of the pandemic, our doctors have been working non-stop. On this occasion of Doctor's day we celebrated our saviours.

INTERNATIONAL DAY AGAINST DRUG ABUSE AND ILLICIT TRAFFICKING --- 26 JUNE 2021

International day against Drug abuse and illicit trafficking was conducted on 26 June 2021. We , NCC Cadets of Nehru College of Engineering and Research centre , conducted the day individually in our own places respecting all the covid-19 pandemic restrictions.

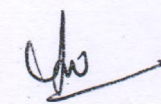

Cadets designed posters against drug abuse. They also designed placards and created drawings to make voice against drugs. All of the designs were shared to other students by making video of it.

All events were conducted in presence of Lt Sanoj T, NCC ANO, NCERC, PAMPADY by respecting all the covid-19 protocols.

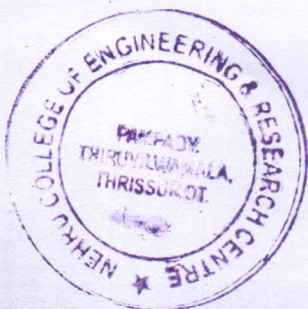

On the day we commemorated Lin Zexu's dismantling of the opium trade in Humen ,Guangdong, ending in June 25 1839, just before the first opium war in China.

INTERNATIONAL YOGA DAY--- 21 JUNE 2021

International yoga day was conducted on 21 June 2021. Due to covid-19 pandemic situation, we , NCC Cadets of Nehru College of Engineering and Research centre, conducted the day individually in our own places.

Cadets practiced yoga and shared different yoga asanas to other students also. We also created a magazine containing pictures, steps, benefits and precautions of almost 28 yoga asanas.

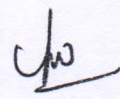

All events were conducted in presence of Lt Sanoj T, NCC ANO, NCERC, PAMPADY by respecting all the covid-19 protocols.

The observance of the day helped us to raise an awareness of the several benefits of yoga. We are proud that the practice of yoga finds its origin in India.

YOGA

2022 JUNE 21

By the 1st member of
Nehru College of Engineering and Research Centre

Dr. K. R. S. R. S. R.

Introduction

Yoga is a spiritual practice that aims to achieve a state of inner peace and harmony. It is a combination of physical postures, breathing exercises, and meditation. The word 'Yoga' comes from the Sanskrit word 'yuj', which means 'to join' or 'to unite'. In this context, it refers to the union of the mind, body, and spirit.

The practice of yoga has been around for thousands of years and is now a popular form of exercise and relaxation. It is believed to have many health benefits, including improved flexibility, strength, and mental clarity. Yoga is also a great way to reduce stress and improve overall well-being.

SETU BANDHASANA (BRIDGE POSE)

STEPS:

1. Lie on your back with your knees bent and feet flat on the floor.
2. Lift your hips and press your knees down towards the floor.
3. Hold the pose for 30 seconds.
4. Repeat 3 times.

BENEFITS:

- Improves flexibility and strength.
- Relieves back pain.
- Improves circulation.
- Reduces stress.

PRECAUTIONS:

- Avoid this pose if you have a hernia or a recent abdominal surgery.
- Do not hold the pose for more than 30 seconds.

MATURASANA (PEACOCK POSE)

STEPS:

1. Lie on your back with your knees bent and feet flat on the floor.
2. Lift your hips and press your knees down towards the floor.
3. Hold the pose for 30 seconds.
4. Repeat 3 times.

BENEFITS:

- Improves flexibility and strength.
- Relieves back pain.
- Improves circulation.
- Reduces stress.

PRECAUTIONS:

- Avoid this pose if you have a hernia or a recent abdominal surgery.
- Do not hold the pose for more than 30 seconds.

CHATURANGA DANDASANA

STEPS:

1. Start in a high plank position with your arms straight and feet together.
2. Lower your body down towards the floor, keeping your elbows close to your body.
3. Hold the pose for 30 seconds.
4. Repeat 3 times.

BENEFITS:

- Builds upper body strength.
- Improves balance and stability.
- Relieves back pain.
- Improves circulation.

PRECAUTIONS:

- Avoid this pose if you have a shoulder injury or a recent abdominal surgery.
- Do not hold the pose for more than 30 seconds.

SARFASANA (SHARK POSE)

STEPS:

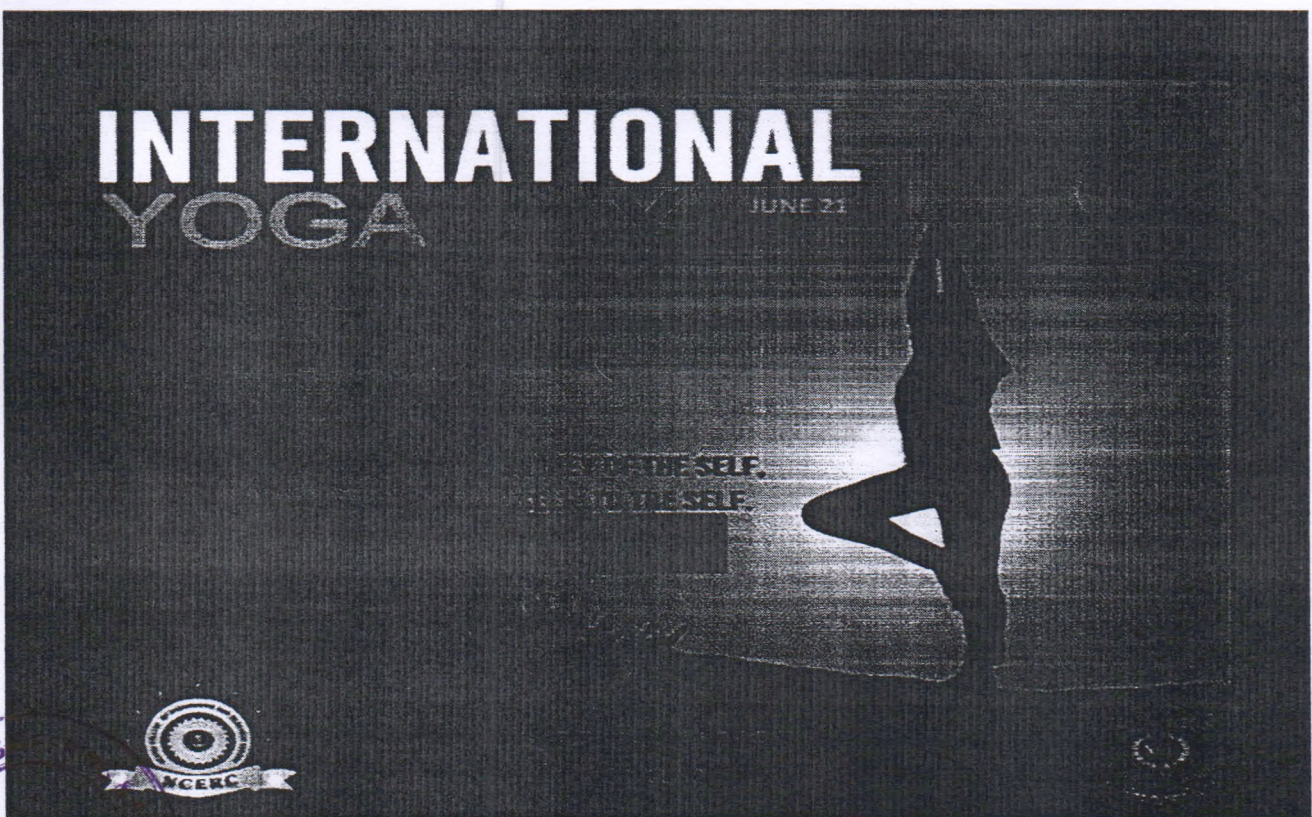

1. Lie on your back with your knees bent and feet flat on the floor.
2. Lift your hips and press your knees down towards the floor.
3. Hold the pose for 30 seconds.
4. Repeat 3 times.

BENEFITS:

- Improves flexibility and strength.
- Relieves back pain.
- Improves circulation.
- Reduces stress.

PRECAUTIONS:

- Avoid this pose if you have a hernia or a recent abdominal surgery.
- Do not hold the pose for more than 30 seconds.

Introduction

Yoga is the most favourable method to connect to the nature by balancing the mind-body connection. It is a type of exercise which performed through the balanced body and need to get control over diet, breathing, and physical postures. It is associated with the meditation of body and mind through the relaxation of body.

Yoga is the ultimate act of harmony between one's physical existence and spiritual conscience. The perfect synchronization between the mind and the body is known as yoga. More than a physical form of exercise, it is considered as a spiritual act that makes you aware of yourself. The deep introspection that we do when our mind is relaxed makes us feel connected to our inner selves. Yoga took shape in ancient India during the early Indus Valley civilizations. It became popular after it was documented in detail by the Hindu priests who originally practiced yoga. In India, Yoga has been adopted as a way of life rather than a form of exercise.

People practice yoga for spiritual, health, and meditative benefits. A combination of different postures or Asana forms the essence of yoga. There are 84 asanas in traditional yoga, but the estimate could go up anywhere from 400 to 1000 if we had access to all the scriptures that documented yoga. What started as an act of extreme meditation has now become popular as a means of relaxation. While yoga can be practiced by anyone at home, the complicated postures need some practice. The deeply rooted spiritualism in yoga is because when our minds and bodies are in complete harmony, we attain a sense of divine peace that might be called 'moksha' in Sanskrit. The aim of yoga is to connect us to ourselves by eliminating any negative energy in our bodies. It is advised that we must sit on the ground while performing yoga as that would transfer the negative energy to the ground.

WORLD ENVIRONMENT DAY--- 05 JUNE 2021

World Environment day was conducted on 05 June 2021. Due to covid-19 pandemic situation, we, NCC Cadets of Nehru College of Engineering and Research centre, conducted the day individually in our own places.

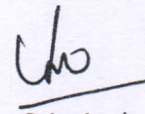

Cadets planted trees at their surroundings and shared the pictures. We also conducted a speak up competition on the topic "ENVIRONMENTAL JUSTICE IN INDIA". Almost 15 students from different colleges participated.

All events were conducted in presence of Lt Sanoj T, NCC ANO, NCERC, PAMPADY by respecting all the covid-19 protocols.

The day created awareness on environmental issues like global warming, ozone layer depletion etc.. and especially environmental justice in India.

MCA ASSOCIATION ACTIVITIES

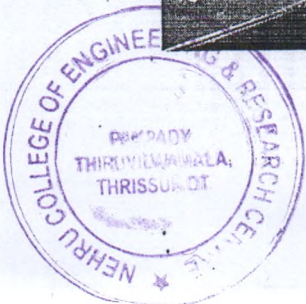

EVENT REPORT 2021-22

ASSOCIATION INAUGURATION

The Inauguration of 14th MCA Association was done in a colorfull manner at Aryabhata Seminar Hall.

The event was blessed by a great guru, Sri. Venkitakrishnan Senior Scientist and Retd. Project lead ISRO. He proposed the students to stay updated in the fields of technology, and continue the pace of hardwork throughout the life.

Followed by a workshop on CyberSecurity led by Technology Experts from Kerala Steds, the opening day of teamMCA for 2021-22 activities, created a live knowledge experience for our students.

LEARNING IN THE NATURE

When adults are asked to recall a time in their youth when they were happiest, invariably they refer to times spent outdoors and with friends. Since experiencing nature is a healthy part of student development, we at times took our classes outdoors and used elements of nature for teaching the usual classroom subjects. Our Philosophy on this project is, *When subject learning takes place outside, it becomes better embodied and has a grander meaning.* Our project 'Learning in Nature' simply aims to bring the technology subjects outside the walls; while building meaningful relationships with the natural world.

In today's fast-paced, exam-pressured, high-tech culture, these models of learning with nature have a high place, so does we believe.

NCERC Campus is rich in Natural spaces including, Oxygen Zones, Mini-Forest, Organic FarmLand, Green House, Butterfly Garden, Open Auditorium etc.. and all these were ideal spots for Learning in Nature. Project Discussions, Seminal Talks, Theoretical Case Studies etc.. were promoted in this model.

PRAYAANA 2022

PRAYAANA is an Annual Intracollegiate Technological Meet being organized by the Department of MCA@NCERC, since 2009. This year we conducted the 14th version of the meet on 27th April 2022. Students from various colleges were invited for the event, and their active participation made it all successful.

Major Programs of Prayaa2022 were

Avabodha: Quiz

YanthraBhaasha: Coding Contest

Chakravyuha: Gaming

Pizada Magazine Release

Reflections: MCA Alumni Meet

Dhwani Award for Best MCA Student 2021 (initiated by MCA alumni)

KalaPrabha: Cultural Event

FACULTY BOOK PUBLICATION

Department of MCA tries to create a new culture, of publishing books by Faculty Members. It's not just about an Authorship credit for the members, but a contribution to the learning community as a whole. We believe that this culture would definitely bring out a positive vibes among Faculty, Student community. The acceptance of our 3 books by the student community stands as a pillar of proof for the same.

Business Management in a Nutshel, E-Commerce Essentials and Impacts on Covid divide were three books which was published by the department.

MCA students were trying to make their humble contribution towards this noble venture, by donating the books so published to the College Libraries.

VISHU-EASTER CELEBRATIONS

Department of MCA celebrated Vishu in a grand manner. The *Kapila nadumuttam* was turned into a divine place, as we set the *Vishukkani*, placing a model of prosperity for the whole department family to witness. Teachers offered *Vishu Kaineettam* to students and blessed them whole heartedly. Sweet Distribution was made in the campus. Proclaiming the message of hope and love, Easter was celebrated in the same stage. Cake cutting was organized by the students. Cultural Programs followed.

SOCIAL EXTENTION ACTIVITY

Man is basically a social being. One of the major principles of education is to inculcate this idea in the hearts and minds of the pupil, and mould them to act upon his/her social responsibilities... Making this as a motivation, Department of MCA stuffed up its Semester Action Plans, so as to include Visits to institutions like Orphanages, Rehabilitation centers, Old age homes etc., to make students aware of the subjugated in the society and help them, in all possible ways, thereby cultivating sympathy and compassion in students' mind. This year our X'Mas Celebrations were organized at Thanal Balashramam – an orphanage which houses 60 boys. Our faculty team and students spent a whole day in the ashramam, prepared food and organized cultural programs for the inmates.

FAREWELL PROGRAM

Bidding adieu to the outgoing batch of our students, teamMCA organized a cool farewell day. Junior students organized the day with so much of fun and created good memoirs for their seniors to carry. Seniors shared their love and regards for the college, and expressed their well wishes for the whole department family. Altogether the Farewell day proclaimed that it was not the end of all the bonds we created over three years but it's a mere goodbye to our campus life. We wish our Graduates all success in their life journey..

NECTAR2021.. THE Ver2.0 of Kerala's first e-Conference

Nehru Group has always proved its mettle during all tough circumstances faced, and keeps turning the stones of Opportunity in every situation of Challenge. During Covid-19 lockdown, when the regular tracks of academics faced a temporary halt, the NGI family rouses above the situation, by initiating an International Conference. The aim was to create a platform for all Researchers, Students and other Stakeholders to come together, discuss, and share their ideas even during lockdown period. Accordingly emerged NeCTAR.. the 'Nehru e-Conference on Technologies Annexing Reality'. Last year, NeCTAR 2020 intended to discuss the Present Trends, Current Problems and Futuristic Solutions that the Tech-domains can device so as to make the Realistic world to be more influential. Thus we announced the 1st International e-Conference of Kerala of its kind, themed Technologies Annexing Reality.

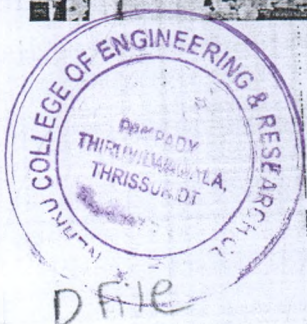

The story doesn't end there.. We continued the spirit of e-Conference alive. as we came up with a much brighter version of NeCTAR. On 2021 Sep 30th and Oct 1st, NeCTAR2021Conference was executed purely on Virtual platforms, and witnessed a huge assembly of participants, during Opening forum and various modules including Webinars, Panel Discussions and Presentation environments. 93 Authors submitted their ideas and 20 paper abstracts were selected for publication. Presentation videos were submitted online, which brought a great opportunity for our delegates to share their thoughts and findings among each other graciously..

4. Mr. Rajkumar G, Nodal Officer have participated in FDP on "Exploring entrepreneurship and Start-up opportunities" organised by srivenkateshwaraa college of engineering & technology from 5th July 2021-9th July 2021.

This is to certify that

RAJKUMAR G

has successfully completed the FDP on the topic

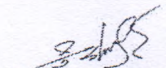

"Exploring Entrepreneurship & Startup Opportunities" organised by

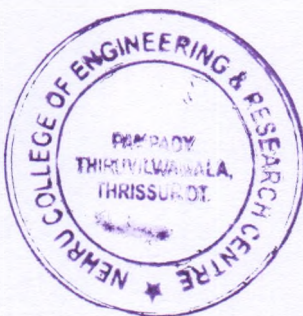

Sri Venkateshwaraa College of Engineering & Technology, Puducherry

from 5th to 9th July 2021.

Mr. G. PALANIVEL

7. Mr. Rajkumar G received Yuva Mentor as a changemaker award on 20th November 2021.

Certificate

OF APPRECIATION

K.I.T.E.S. Education

HONORS

Rajkumar G

*Assistant Professor, IEDC Nodal Officer,
Nehru College Of Engineering And Research Centre, Thrissur, Kerala*

Awarded with

YUVA MENTOR AS A CHANGEMAKER AWARD

*in recognition for their outstanding and appreciable
work in Innovative Education.*

at International Summit

Innovative Educators - Key of Future Education

which was held virtually on **20th November 2021**

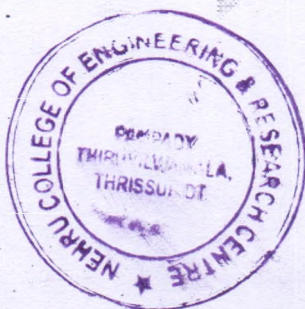

in association with Yuva Incubated & Bhavishya Skills.
