SESSION WISE REPORT

Research and Development Cell, Nehru Group of Institutions, organized the **Technology Based Entrepreneurship Development Program (TEDP) on Internet of Things** for the year 2019-2020 at Nehru College of Engineering and Research centre (NCERC), Pampady, Thrissur during 25th March to 3rd May 2019. It was sponsored by National Science & Technology Entrepreneurship Development Board (NSTEDB), Department of Science and Technology (DST), New Delhi and Entrepreneurship Development Institute of India, (EDI) under Department of Science and Technology, National Implementing and Monitoring Agency for Training (DST-NIMAT) Projects.

Day 1 (25/03/19) - Forenoon session

Inauguration & Programme Objectives: Expectations from trainees, Final Goal, Programme Strategy

Lighting of the Lamp by dignitaries

- **Dr. Ambikadevi Amma T**, The Principal, Nehru College of Engineering and Research centre, inaugurated the function and delivered the welcome address followed by presidential address to the gathering.

PRINCIPAL
Nehru College of
Engineering and Research Centre
Pampady, Thrissur, Kerala
India - 686 011

- **Dr. Sudheer S Marar**, HoD MCA department delivered the speech on importance of organizing EAC and felicitated the gathering.
- **Shri. Unni M R** delivered the vote of thanks and the function was concluded with the National Anthem.

Forenoon session by Dr. Sudheer S Marar Historical Background- Entrepreneurship and present scenario

Dr. Sudheer S Marar addressing the participants

Dr. Sudheer S Marar started the session with a very positive motivation to encouraging the young minds to become entrepreneurs as an alternative career option, and the possibilities it brings in future. He gave the importance of being Forward-looking, Hard working, Passionate, Confident, Resourceful, and being Positive nature with live examples. The session enlightens the mind set of students regarding in the field of entrepreneurship. He also shared some tips like enjoy what you do, plan out things, manage your resources wisely, how to become a self-promoter and much more. Towards the end he shared with students about the three types of people, such as, the one who makes things happen, the one who watches things happen, the one who wonders what's happening.

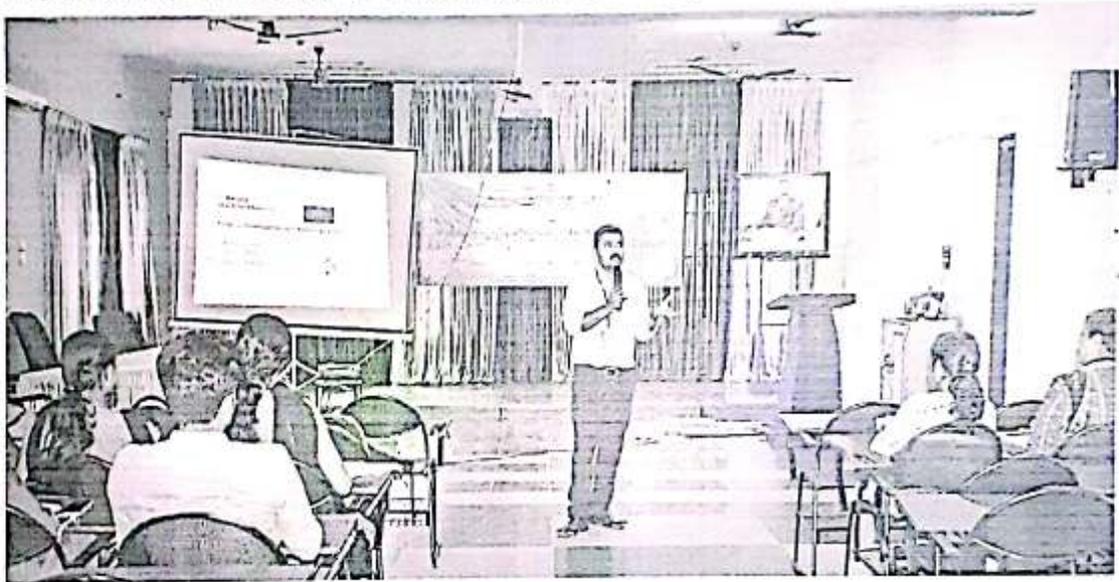

PRINCIPAL
Nehru College of Engineering & Technology
Thrissur
PRINCIPAL

The sessions then concluded by sharing testimony of different CEO's. He spoke on how to convert the idea into an Enterprise and showed many innovative videos on how startup has a very huge impact on our society and how useful it is to our society .He encouraged the students to brainstorm in and throughout the sessions and made us aware about how small things can make big impact in our society .He taught us how a simple and logical idea could convert in potentially bigger business. He had spoken a few words for building self-confidence. Business mans are not doing anything wrong by making money. Then he discussed about how entrepreneurship becomes a social service them.

Day 1 (25/03/19) - Afternoon session

Importance of Technology and knowledge-based entrepreneurship

Asst Prof. Mr Unni M R addressing the participants

Unni M R, IEDC Nodal officer ,NCERC taking place the session with a clear picture about the Role of Technology Entrepreneurship Education in Encouraging to Launch New Ventures. It is evident that the impact of technology on our day to day lives has grown exponentially over the past decade. Whether it be laptops or cell phones, technology helps us connected with the world around us and acts as a portal to vast amounts of knowledge which can be accessed with ease. However, many new entrepreneurs do not

PRINCIPAL
Nehru College of
Engineering and Research Centre
Pampady Thuruwamala, Thrissur Dt.
Pin - 680 507, Kerala

utilize technology to its full extent to propel themselves to new heights.

He then focused on Technology entrepreneurship and it is a concept of transforming research and potential of scientific institutions into new products and services, which significantly increases benefits to consumers and results in a faster economy growth in the future. He highlighted on the fact that the most important element of technology entrepreneurial system is the entrepreneur itself because entrepreneur is the key substance in the development of businesses and startups progression. He stated that the Technology based entrepreneurs have more technical and practical expertise and capabilities than non-technical ones. One significant factor in the new business accomplishment is the conversion of the entrepreneurial attitude into the managerial approach and he gave clear picture on how to attain it with many remarkable examples.

He concluded by saying entrepreneurs should incorporate technology in their businesses they are Communication, Research and Development and Web Based Advertising.

Day 2 (26/03/19) - Forenoon session

Identification of opportunities

Shri.Muruganantham.C addressing the Participants

PRINCIPAL
Nehru College of
Engineering and Research Centre
Tamil Nadu

Shri.Muruganantham.C, Asst. Prof. Department of ECE., NCERC took a session on Identification of opportunities. He discussed about Entrepreneurship is a Process through which entrepreneurs create and grow enterprises. With regards to technology entrepreneurship, he analysed the various areas such as how to create an organizational culture based on knowledge, creating an attitude of openness to knowledge and new solutions among employees. Entrepreneurial community is where significant economic and social entrepreneurial activity exists within an effective system of public and private support. He clearly explained various methods for generating new business ideas. Understand the difference between a business idea and a business opportunity. He gave a complete picture about how to identify various entrepreneurial opportunities. He made the students to understand the nature of the occupational and geographical mobility of entrepreneurs and discuss business opportunities in India. He also explained the Ramp Model and Mullins's Seven-domain Framework for evaluating entrepreneurial opportunities with solid proofs. Next he to identify the opportunity was given with the illustration diagram and with the important terminology: 1) Observing Market Trends. 2) Solving the Problem 3) Finding gaps in the marketplace.

Entrepreneurship development, Policies and practices (public and private) that foster entrepreneurship . Difference between entrepreneur and businessman was taught. Also identifying entrepreneur was given with chart.

He discussed about The windows of Opportunity was explained with the diagram and real time examples:

Definition: Describes the time period in which a new firm can really enter into the market. New entrants will enter into the market once the window is opened. Examples given: Google is not the first in the search business nor Facebook in the social network business. How to identify the opportunity was given with the illustration diagram and with the important terminology: 1)

Observing Market Trends. 2) Solving the Problem 3) Finding gaps in the marketplace.

Day 2 (26/03/19) - Afternoon session

Creativity and business

Smt Biji.K.P addressing the Participants

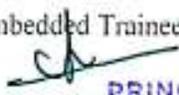

Smt.Biji.K.P Assistant Professor, CSE department, NCERC handled session on Creativity and business. Creativity is the ability to develop new ideas and to discover new ways of looking at problems and opportunities. Innovation is the ability to apply creative solutions to those problems and opportunities in order to enhance people's lives or to enrich society. Every business wants take up with its industry's latest trends and stay ahead of its competitors. Creative thinking — that is, dreaming up new and unique ways of doing things — is obviously a part of that process.

She told method of generating new ideas, even with such a wide variety of sources available, coming up with an idea to serve as the basis for a new venture can still be problematic. The entrepreneur can use several methods to help generate & test new ideas such as, focus groups, brainstorming, brain writing and problem inventory & analysis.

Day 3 (27/03/19) Forenoon session

The technical training and hands on experience on Internet of Things was given by the team Mr.Mohamed Younus, Assistant Embedded Trainee and

PRINCIPAL
Nehru College of
Engineering and Research Centre
Punnoy, Thriassur, Kerala
0471-2541111

Mr.R.Vinoj , Assistant Embedded Trainer of Beta Technologies India Pvt. Ltd., Coimbatore. The team addressed the participants with both theoretical knowledge and made them to handle small projects on IoT by themselves. They gave emphasis on the following Technical Training concepts

1. PCB Design and Fabrication through IoT
2. The basics of programming languages used in Raspberry Pi
3. Cloud Computing based Projects on IoT
4. Embedded Systems Design based on IoT
5. ARDUINO

Introduction about IoT and Hand on session

PRINCIPAL
Netru College of
Engineering and Research Centre
Dattapur, Thiruvananthapuram

PCB Design and Fabrication through IoT

- Knowledge in step-by-step approach for the development and manufacturing of a printed circuit board.
- Identifying the correct components to use in the design.
- Able to find specific issues and skill to solve it in the areas of manufacturing and assembly.
- The students can come to know the potential pollution and safety impacts of PCB manufacturing, as well as applicable standards.

Introduction about PCB Design and Fabrication

Day 3 Afternoon Session (27/03/19)

the basics of programming languages used in Raspberry Pi

- Boot the R-Pi with SD card and other peripherals.

PRINCIPAL
Netru College of
Engineering and Research Centre
Dampuru, Tiruvanamala, Thiruvallur
Dist. - 601 307, Tamil Nadu

- Create user accounts and to write various programs using Python and C languages.
- Network the R-pi and managing directories, files.
- Create and debug programs in an integrated development environment.
- Design and develop their own projects using various sensors.

Hands on session Raspberry Pi

Day 4 Forenoon Session (28/03/19)

Cloud Computing based Projects on IoT

- To learn how to use Cloud Services.
- To implement Virtualization
- . To build Private Cloud.

Ch
PRINCIPAL

 Engineering and Research Centre
 Tripunindrappalli Thiruvahoti
 Dist. Tiruvallur, Kerala

Cloud Computing based Projects on IoT
Day 4 Afternoon Session (28/03/19)

Embedded Systems Design based on IoT

- To study the different ways of communicating with I/O devices and standard I/O interfaces.
- To study the programming concepts of Embedded Systems
- To study design examples relating Software Implementation, system-on chip, Testing, and debugging

A handwritten signature in green ink, likely belonging to the Principal.

PRINCIPAL
Nenu College of
Engineering and Research Centre
Chittoor, Andhra Pradesh, India
Dr. Nenu Lakshmi

Hands on session concerning Embedded Systems Design based on IoT
Day 5 Forenoon Session (29/03/19)

ARDUINO

- Understand the basic principle of how to communicate with the ARDUINO.
- Able Understand the conditions for ARDUINO & Processing.
- Design and develop their own projects using various sensors.
- Able to use microcontrollers with practical applications.
- To develop programs on ARDUINO and to create own projects.

with practical applications in Programming, Embedded Systems,

Electronics Development; Custom based Embedded Systems Design, Testing

and Production.

Hands on session on ARDUINO based IoT Projects

Trainer Name :

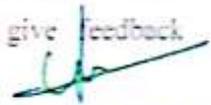

1. Mohamed Younus, Assistant Embedded Trainee
2. R.Vinoj, Assistant Embedded Trainee

Day 5 Afternoon Session (29/03/19)

Discussion with participants for their reactions about the training

The afternoon session was taken by Shri Unni M R, Assistant Professor Department of EEE, NCERC. He discussed about the essential qualities like positive attitude, reacting positivity in adverse situation, self-confidence, do not to give up, ignoring the negative comments etc were discussed. Each quality had a story to motivate students. Students were asked to give feedback. Students were informed about the objectives of this awareness camp and give feedback objectively based on the 1 week learning.

Engineering and Research Centre
Thiruvananthapuram
2018-2019

Nehru College Of Engineering And Research Centre, Pampady,
Thiruvilwamala, Thrissur-680 588

Innovation Entrepreneurship Development Club Activities

Objectives

- To guide the young entrepreneurs.
- Students having innovative ideas are brought under IEDC.
- To coordinate the activities of entrepreneurship in the college.

Registration of the Club

ED Club of NCERC has been registered with the Directorate of Industries & Commerce under the ED club programme of the Dept.of Industries & Commerce, Govt.of Kerala in 2016.

We got sanction for starting TBI at NGI on 01st January 2019 from NSTEDP, Govt. of India.

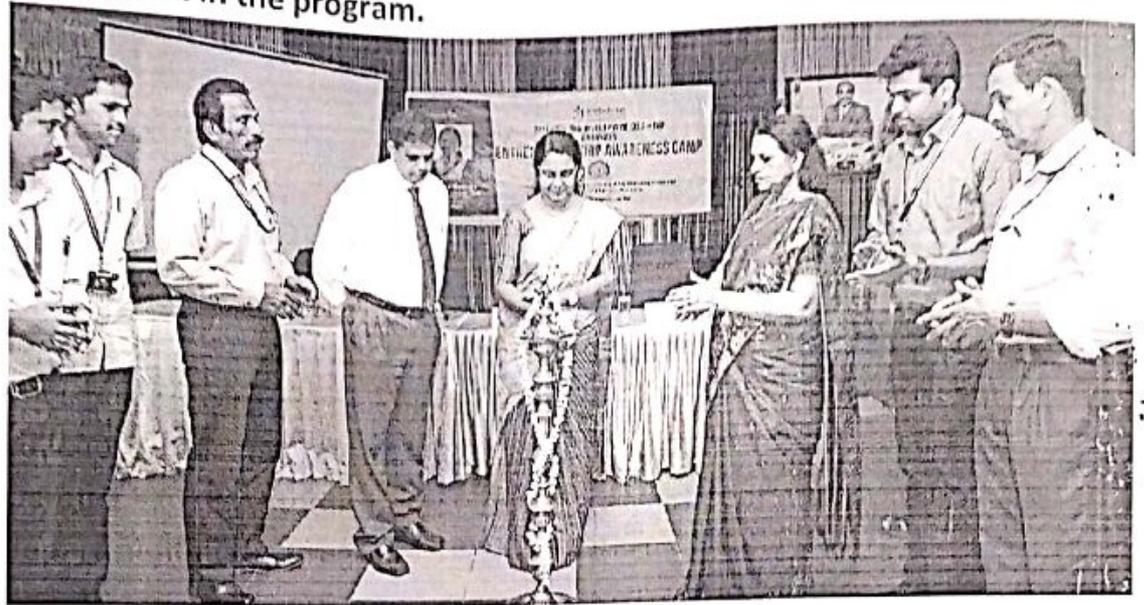

Programs Conducted:

- (1) Three days Entrepreneurship Awareness Camp 1 was held at Nehru college of Engineering and Research centre on 26th, 27th, and 29th September 2018. A total of 89 second year students from various department in the program.

PRINCIPAL
Nehru College of Engineering and Research Centre
Thiruvilwamala, Thrissur

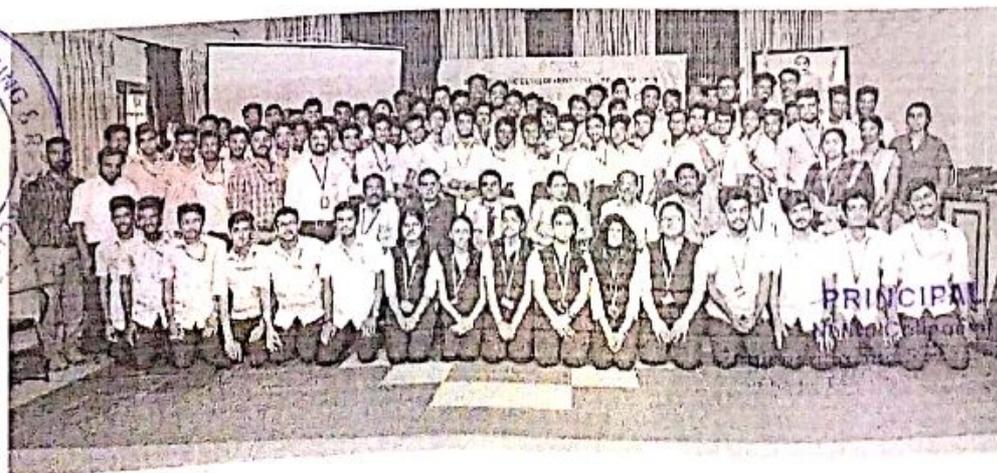

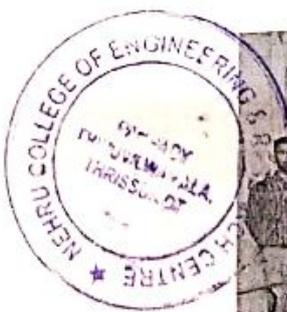

(2) Three days Entrepreneurship Awareness Camp 2 was held at Nehru college of Engineering and Research centre on 10th, 11th, and 12th October 2018. A total of 75 Third year students from various department in the program.

Lighting of Lamp by Smt.LinoGeorge, Assistant District Industries Officer, Government of Kerala

(3) A one day workshop on "INTELLECTUAL PROPERTY RIGHTS-CREATIVE THINKING AND INNOVATION-AN INSIGHT", conducted by Dr.Vinod .V, Professor, Mechanical Department, NSS college of Engineering, Palakkad on 10th January 2019.

(4) Three days Entrepreneurship Awareness Camp 3 was held at Nehru college of Engineering and Research centre on 29th, 30th, and 31st January 2019. A total of 80 First year students from various department in the program.

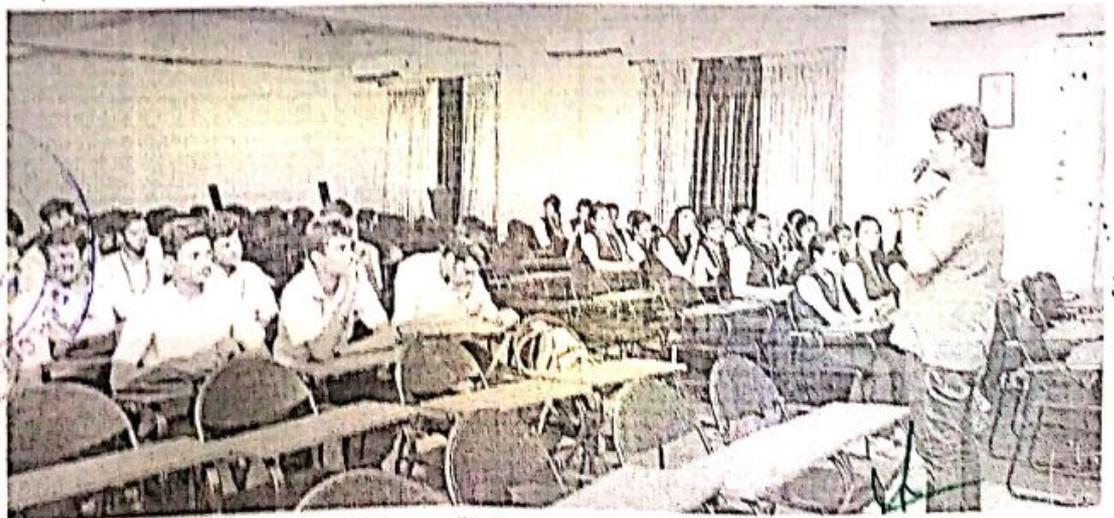

(5) Three days Entrepreneurship Awareness Camp 4 was held at Nehru college of Engineering and Research centre on 14th,15th, and 18th March 2019.A total of 80 First year students from various department in the program.

Lighting of Lamp by Shri.Sreejith S L, Founder, Impulz Healthcare

(6) Three days Entrepreneurship Awareness Camp 5 was held at Nehru college of Engineering and Research centre on 28th,29th, and 30th March 2019.A total of 80 First year students from various department in the program.

Shri.Edwin Andrews,CEO,Spartez Technology addressing the students

MUNICIPAL
Nehru College of
Engineering and Research Centre
Campus, Hrishyavanata, Thiruvananthapuram
Pin - 686 012, Kerala

(7) Six weeks Technological Based Entrepreneurship Development programme(TEDP) on Internet of Things(IoT) was held at Nehru college of Engineering and Research centre on 25th March 2019 to 3rd May 2019. A total of 29 PG(M.Tech) students from various department in the program.

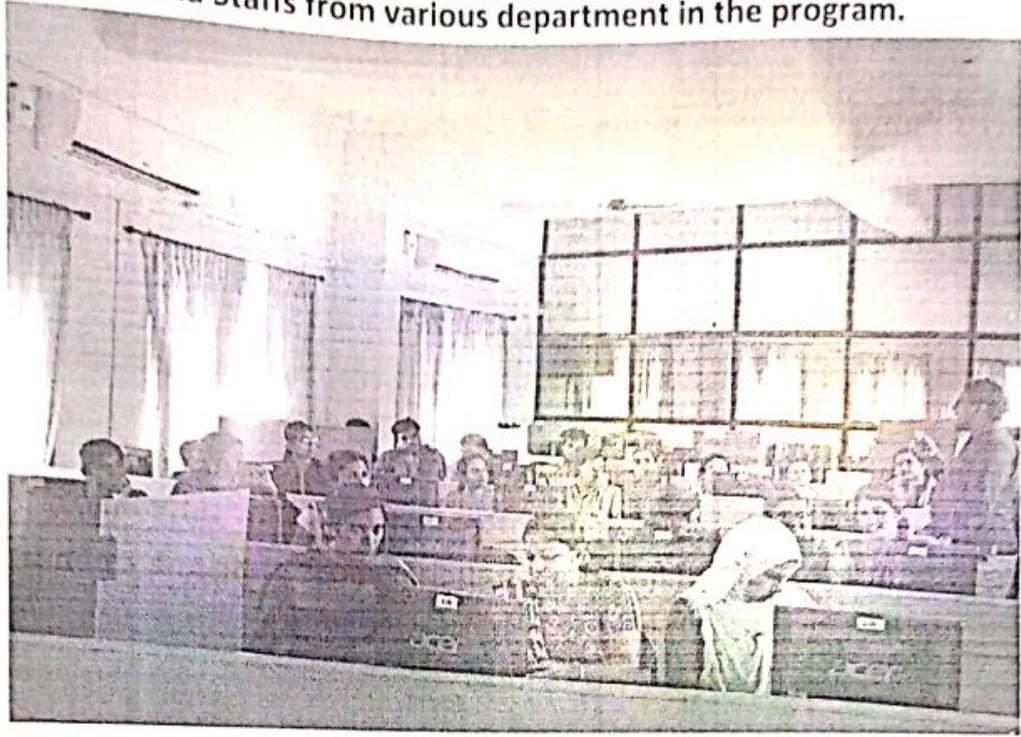

Group photo of TEDP based IoT Program

(8) Four weeks Entrepreneurship Development programme(EDP) was held at Nehru college of Engineering and Research centre on 6th May 2019 to 31st May 2019. A total of 25 students from MCA department in the program.

(9) One day Internet of Things(IoT) workshop was held at Nehru college of Engineering and Research centre on 27th May 2019. A total of 20 Students and Staffs from various department in the program.

Internet of Things(IoT) workshop

Lab installed

- An IoT based lab is installed for developing projects based on Arduino and Raspberry pie on 27th May 2019 at NCERC campus Pampady.
- Students can work and develop their own projects within the campus using IoT lab.

Student Achievements

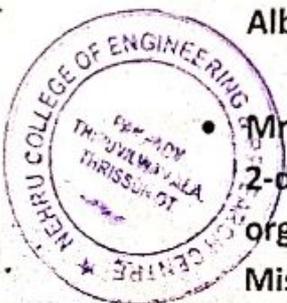

- Mr.Sreejith S and Mr.Sudharsan of S7 Mechatronics got selected for Yuva Mastermind and got a grant of Rs.10000 to complete the prototype.

Mr.Vishnu, Alumni, CSE Dept, NCERC, Pampady has started a company named "QUARD PROSO" and got 12 lakhs fund from KSUM.

PRINCIPAL
Nehru College of
Engineering and Research Centre
Pampady Thiruvananthapuram, Thiruvananthapuram
Pin 680 597 Kerala

- Students team from Nehru college of Engineering and Research centre attended the IEDC submit on 3rd November 2018 held at AmalJyothicollege, Kanjirapally, Kottayam.
- Mr. Govind, Mr. Jithin T. J., Mr. Melvin Johnson, and Mr. Sreerag of final year mechatronics, got incubation in Central Institute of Fisheries Technology (ICAR-CIFT) Kochi.
- Few students from NCERC attended a project innovation competition, "CONCLAVE-2019", CONDUCTED BY THE District Industries Center, Thrissur from 25th to 26th February 2019.
- A group of students across various disciplines attended a project innovation and startup competition, "UDYAM SAMAAGAM-2019" conducted by MSME Thrissur from 19th to 20th March 2019.
- Mr. Prasanth K.R and Mr. Sarath Krishna E, First year mechanical engineering students of NCERC, attended the idea presentation camp "SAMRAMBHAH MITHRA", conducted by Mar Ivanios college, Thiruvananthapuram on 16th March 2019.
- Students of Final year mechatronics engineering bagged first prize of Rs.20,000/- in the event "IDEA PITCHING-2019" conducted by Rajagiri college of Engineering, Ernakulam on 15th March 2019.
- Students of Final year mechatronics engineering bagged first prize of Rs.25,000/- in the event "IDEA PITCHING-2019" conducted by Albertian Institute of Science and Technology, Ernakulam.
- Mr. Cyril Joseph and Mr. Sreejith S of EEE department participated in a 2-day workshop, "PRESENTATION SKILL AND Idea Pitching-2019" organized by ICT academy of Kerala in association with Kerala Startup Mission.

Handwritten signature and stamp of Nehru College of Engineering and Research Centre, Thiruvananthapuram, Thrissur District.

- Seven Students of CSE department participated in a 2-day workshop, "Python Programming" organized by ICT academy of Kerala in association with Kerala Startup Mission from 25th to 26th April 2019.

PATENTS:

Two Student Projects of EEE department filed under INTELLECTUAL PROPERTY INDIA. Project titles are mentioned below:

- (1) Weather Based Automatic Roof Top Control
- (2) Lightning Arrester For Domestic Appliances(LADA)

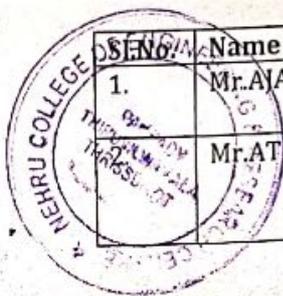

STAFF COORDINATOR:
